The International Soccer School Striker/Keeper Camp

is an intense five days of specialized training for serious soccer players looking to improve dramatically at their position(s). Players will receive position specific training of their choice. Each session will challenge each player on the principles of each position while also working technically to improve the players overall individual skill. Each day will conclude with combined scrimmages and small side games in order to implement what has been taught and covered each day.

We have a plan, timing and format that will meet your player's needs!

For STRIKERS

The Striker Camp is all about scoring GOALS! Campers will train on how to create scoring chances and capitalize on them. We have developed a series of exercises to teach players the right techniques of shooting:

- Striking the ball
- 1 V 1 Attacking
- Turning and shooting
- Volleys

For GOALKEEPERS

The Goalkeeper Camp is all about denying GOALS! Campers will practice on the following technical areas:

- Catching
- Diving
- Breakaways
- Crosses
- Footwork
- Defensive organization
