Log #30 Page #1**

24th: Wayne Roma, 28 Shiloh Place, has demolished a trailer/home and is now replacing it with a small, full foundation, structure. There remains an existing garage, and a deck from the trailer has been moved and converted into a screened-in structure. Roma is establishing a fine residence in the neighborhood.

26: Patco requested a report to verify (for their financial institution) that set-back of the storage structures were correct. E-maio done.

Wes.
