

## Family Discovery® International Graduate School Consortia for Entrepreneurial Leadership

G. D. Jackson, E.D. - Rectorate Superintendent

### Gifts & Trade Skill Development Education Focus - 21<sup>st</sup> Century Consortia Model - International (US VFW's Consideration)

FD®IGSCFL Programming - Value-added spiritually-based entrepreneurial leadership that increases employment and educational opportunities through ministries of family, community/church, business, education, arts & entertainment, media and government. Sentinel to the progress made and relationships developed for Innovative Educational Program Delivery [i.e. The Church is often referred to as a building/institution instead of a gathering of people who love and serve society for the purpose of influencing culture; or the Education system (or schools, colleges and universities) is often referred to as an object instead of a gathering of learners who deliver processes of integrity for learning programs that serve society for the greater good by meeting community needs and influencing culture.]

**Mission: To provide program policy leadership which adds value to the field of education and serves PLC members in a transformative way.**

**Vision: To be a transformational education service provider program by actualizing opportunities and access for quality higher learning including, but not limited to, community outreach with intentionality in the urban context.**

Ph.D. Equivalency Program Recognition - Cooperative and Special Degree program that meets the needs of select, highly qualified doctoral students with unique needs and interests that cannot be met by a single existing program. This Ph.D. equivalency program recognition crosses traditional disciplinary boundaries and opens new areas of instruction and research.

Honoris Causa – Beyond Ph.D. and other research doctorate level credentialing. This recognition includes habilitation.

Recognition (*Distributed Scientific* vs. *Skewed Political or Religious*) – The pathway to obtaining Interstate (also some Intrastate) Superintendent Licensure is more rigorous qualitatively and quantitatively than earning a doctorate degree from most universities as evidenced by additional coursework beyond Ph.D. to earn Superintendent Licensure. DS is **unleavened in practice & application**. The FD®IGSCFL is the **Multidimensional Spiritually & Culturally Responsive Program** which embraces *spiritual/faith-related leadership with intentionality in the urban context*.
