Degrees

- Doctor in Natural Sciences (2014) -- *honoris causa*. Roskilde University
- Doctor of Philosophy (2014) -- *honoris causa*. University of Pretoria. Faculty of Engineering, Built Environment, and Information Technology.
- Doctor of Philosophy (1986) -- Systems Analysis. The London School of Economics and Political Science (University of London), supervised by Frank Land, Department of Information Systems.
- Master of Science (1980) -- Analysis, Design and Management of Information Systems (Accounting Option). The London School of Economics.
- Bachelor of Science *summa cum laude* (1979) -- Business and Management. University of Maryland, European Division, Heidelberg. Primary areas: Personnel Management and Business Law.

Academic Appointments

- 1997 - present time. Georgia State University, J. Mack Robinson College of Business Administration, Department of Computer Information Systems, Regents' Professor (2016 - present), Board of Advisors Professor of Information Systems (2007 - present), Professor of Information Systems (2001 - 2007), Chair of the Department (1999 - 2006), Associate Professor of Information Systems (1997 - 2001).
- 2014 - present time. School of Information Systems, Curtin Business School, Curtin University, Perth, Western Australia, Professor (partial appointment).
- 1988 - 1997. State University of New York at Binghamton, School of Management, Associate Professor of Information Systems with tenure (1994 - 1997, Assistant Professor, 1988-1994).
- 1984 - 1988. University of Tennessee at Chattanooga, School of Engineering, Associate Professor of Computer Science, (1987-1988), Assistant Professor (1984 to 1987).
- 1981 - 1984. Francis Marion University (then F. M. College), Department of Business, Assistant Professor of Computer Science.

Visiting Appointments

- Visiting Professor, Université Paris Dauphine , 2008-2013
- Visiting Professor, LUISS Guido Carli University, Rome, June 2011, June 2014
- Visiting Professor, University of Strasbourg, May 2011
- Visiting International Fellow, AIM Advanced Institute of Management Research, London, England, November, 2008

- Visiting Research Fellow, School of Information Systems, Curtin University of Technology, Perth, Western Australia, August-December 2006, July-August 1997.
- Visiting Professor, University of Sydney, Australia, November 2006.
- Visiting Professor, Bocconi University, Milano, Italy, October 2006.
- Visiting Associate Professor of Computer Science, Copenhagen Business School, Copenhagen, Denmark, Institute for Informatics, May - June 1999, Institute of Informatics and Management Accounting, May, 1995 - August, 1996, Institute of Computer and Systems Sciences, May - August, 1995; May, 1994; May, 1993; May - June, 1992.
- Professor of Computer Science, Governor's School for the Sciences, University of Tennessee, Knoxville (Summer, 1987, 1989 - 1994). Major accomplishment: Responsible for original design of the general computing and computer science concentration curricula.
- Visiting Lecturer, London School of Economics, Department of Systems Analysis, (Lent Term, 1984). Course taught in general computing.

Professional Appointments

- 1987 - 1990. Oak Ridge Associated Universities Special Projects Division, Washington, Scientific Advisor, (Part-time, September 1987 to April 1990, full-time, Summer 1988). Consultant on Naval Sea Systems Command projects. Major accomplishment: Design/development of a referential integrity extension to a major relational database system.
- 1977 - 1980. U.S. Naval Electronics Systems Engineering Center, U.S. Naval Forces, Europe, Electronics Technician GS-12. Major accomplishment: design, implementation and maintenance of a management information display system including process control, graphics applications, television production and video distribution facilities. Responsible for hardware circuit design, software design, hardware procurement, and coding/testing of software. Frequently consulted with senior Naval executives to plan, implement and manage the final system. Held Top Secret, Special Intelligence national security clearances.
- 1976 - 1977. Saturn Systems, Inc., assigned to U.S. Naval Forces, Europe, Senior Engineer. Major accomplishment: design and installation of a secure color closed-circuit television studio production facility. Responsible as field representative of the firm to Army, Navy, and State Department management. Held Top Secret, Special Intelligence national security clearances.
- 1974 - 1975. University of Virginia, Medical School, Chief Engineer for Medical Television. Major accomplishment: design, implementation and project management of a medical television production and editing facility. Responsibility for internal and external consulting in television systems planning and design.
