

Kettle Corn

Ingredients

1/2 cup popcorn

1/4 cup butter

1/4 cup sugar

1 1/2 teaspoons salt

Directions

Mix sugar and salt together. You will have enough to make several batches of kettle corn. Use a hot air popper to pop corn. Pour melted butter over popcorn and stir. Put 2 cups of popcorn in a lunch bag. Sprinkle with 1 teaspoon of sugar salt mixture, fold bag down 3 times and shake well. Place on a baking sheet and bake for 5 minutes in an oven preheated to 275. You can place several bags on one baking sheet.

This is not real kettle corn but has the same flavors and is much easier for children to help make.
