Dr. Spivak sees patients
up to 22 years old

Dr. Spivak is an internationally recognized Pediatric Gastroenterologist with more than 25 years of experience. He completed his Pediatric GI & Nutrition Fellowship at the Boston Children's Hospital & was an Instructor at the Harvard Medical School; he is currently a Clinical Professor at Cornell. He served as Division Chief in Pediatric GI and Nutrition at New York Hospital and at the Children's Hospital at Montefiore. He has been included in *Best Doctors in America* and *Best Doctors in New York* for more than 10 years. He spends an hour or more with each new patient and uses this time to understand how your child's symptoms impact all aspects of his/her physical and emotional health.

William Spivak, M.D.
