

2020 President's Update

Dear CMAA Baltimore Chapter Members,

I hope that this reaches everyone in good health. Please continue to make sound decisions regarding your daily lives and business doings. These are certainly unprecedented times requiring we exercise our best management skills and act in the interest of both personal and public safety.

Amazon has cancelled our March tour and we will attempt to reschedule. It appeared that interest was very high. At this point, they are not accepting any tour requests. We have worked with the Mt. Washington Conference Center to reschedule the Owner's Forum until later this year. Please save November 4th, 2020 for this event.

We are closely monitoring the government health official's advice for future events. I can't imagine that anyone would have seen events being cancelled at the level they are now. We are looking at scheduling a happy hour for those interested in serving on a committee. As soon as we feel confident to set a date we will. Perhaps we will be able to resume some events in late April. We will continue to push information and notices out via email and posts on our website. Please check frequently.

We also need our members to support our golf outing and awards banquet. These events are vital to our scholarship program. I highly encourage everyone to consider entering the award program. The award categories and presentations have been greatly expanded. It is fantastic publicity to win these coveted awards and great recognition for the staff working in the CM role daily. You can work on these regardless of the virus and any shutdowns. Details are available on our chapter website and have been emailed to members.

We will be back to normal function before you know it and I look forward to seeing everyone again. Until then please promote healthy practices.

Sincerely,

David A. Wissmann
