

# Financing

The Tower Crane School of Phoenix does not provide financing, but we are eligible to receive funding through the Workforce Innovation and Opportunities Act, as well as the Post 9/11 GI Bill. At this time we are not eligible to receive traditional student loans, as our program lengths do not qualify us for this type of funding.

# Eligibility

- Students must be 18 years of age.
- Copy of high school diploma or GED must be provided.
- Medical clearance required.
- \$1000 deposit to reserve place in class must be paid within 2 weeks of class start date.
- Visit [towercraneschoolphoenix.com/eligibility.html](http://towercraneschoolphoenix.com/eligibility.html) for specific forms and more information.

**"Tower Crane School of Phoenix, LLC fully endorses the national certification program offered by the National Commission for the Certification of Crane Operators (NCCCO), and will prepare candidates for the CCO certification examinations."**

**Arizona State Conditional Vocational Licensed School**

**License No. V1333**

# Tower Crane School of Phoenix

Become an operator in one of the leading industries in the world.

Tower Crane School of Phoenix is located just south of Sky Harbor Airport in sunny Phoenix, Arizona. We offer tower and mobile crane classes, with hands-on training for NCCCO (National Commission for the Certification of Crane Operators) certifications.

3620 S. 40th Street

Phoenix, AZ 85040

# Overview

TSCP will provide you with the best possible training available. We teach new or experienced Crane Operators critical skills and techniques. TSCP offers training for NCCCO certification and testing on every type of mobile crane available, but preparing for NCCCO certification is only part of the training.

Additionally, each student must exhibit skills at concrete bucket placement, standing up columns and walls, and structural steel beam erection. Students learn how to place loads with precision and confidence. TSCP training for load placement includes: operating skills, understanding of crane load charts, setup, rigging, and both hand and verbal crane signals.

Class sizes and equipment availability ensure maximum seat time for students. We provide a large selection of crane training on: Unic Boom Truck, Grove Truck Telescopic Crane Training, American Lattice Boom Crawler Crane and Potain Free Standing Tower Crane. Students work on the ground rigging and flagging cranes, as well as operating both mobile and tower cranes.
