# The Billy Meier Case: True or a Hoax?

by Christian Frehner, FIGU Switzerland.

- FLCA Shop  <https://ca.figu.org/figu-shop---the-billy-meier-case--true-or-a-hoax-.html>

Der Zweck dieses Buches ist die Präsentation einer fairen, neutralen und unvoreingenommenen Behandlung und Einschätzung des Billy-Meier-Falls.

The purpose of this book is to present a fair, neutral and unbiased treatment of, and approach to, the Billy Meier case.

## → An Important Preliminary Explanation

*The purpose of this text is to present a fair, neutral and unbiased treatment of, and approach to, the Billy Meier case.*

*The method to achieve a result that is relatively congruent with reality is, by asking all those relevant questions that any sincere scientist or researcher would ask.*

*Getting at the core of reality and assessing facts, requires an open mind that does not shy away from staying on track, even when the findings contradict current views, beliefs and hypotheses etc.*

*Unfortunately, the world still greatly lacks people like Archimedes, Galileo Galilei or Einstein, among many others, who were capable of breaking through contemporary prejudices and beliefs, and brought forth new knowledge that led to a "chain reaction" of new findings etc.*

*Rational thinking is an endless quest to detect and reveal reality, because truth may be found only in facts, i.e. reality.*

*The truth stands in absolute opposition to any form of belief, because any belief – without exception – is per se, unprovable.*

*Based on this, the author stresses the fact that he neither intends nor wishes to convince anybody as regards judging or believing the Billy Meier case as being true.*

*Quoting Billy Meier here may add some elucidation:*

***"Contrary to conviction or persuasion stands certainty, which originates alone from a given fact and, therefore, from realness, reality and its truth, which may be proven throughout and has nothing to do with a conviction, but is integrated into an effective knowledge as well as into that which is given by, and which is factual through, reality and its truth."***

***Certainty is a firm, steadfast knowledge that can be proven through the verification of an issue, or through experience and the living of it, and therefore through reality and its truth."***

*The fact that the author closely collaborates with Billy Meier makes no difference whatsoever concerning the relevance of the following discourse, at least so long as he applies neutrality, logic and an absence of prejudice.*

*In fact, the familiarity between the author and Billy Meier will turn out to be a great advantage, based on the opportunities of first-hand and long-term observations, impressions, insight and understanding etc.*

## - A change statement from the Saalome Team -

'Billy' Eduard Albert Meier

... How do you do that if you want offspring?

Semjase

21. We procreate our descendants in the same natural way as is that of terrestrial humans and all other material forms of life in all universes.

Semjase

22. That says:

Semjase

23. Man and woman, male and female, mate to commit a sexual intercourse.

Semjase

24. This form of procreation is a completely natural process in all material universes, which is also normally carried out everywhere in this manner.

Semjase

25. A man sleeps with a woman, mates with her and fertilises her, so a procreation takes place.

Semjase

26. In a normal form this is done by bringing the bodies together, which means that man and woman snuggle up to each other, unite in love, and the man inserts his procreative organ into the woman's entrance opening, which takes in the semen that begets, is fertilised, and thereby develops new life.

Semjase

27. Any other natural form of procreation does not exist, apart from exceptions where, in certain circumstances, a different, unnatural form of procreation takes place, but this is a very rare occurrence.

Semjase

28. This also applies to artificial insemination, which is usually only used in extreme cases to preserve the species.

Semjase

29. On the whole, however, the procreation of the offspring is oriented towards the normal sexual intercourse, for only this form corresponds to naturalness and creational laws and recommendations.

Semjase

30. And only the observance of this form within a precisely defined framework guarantees the continuity and the spiritual as well as consciousness based and physical evolution of a life-form, because forced or artificial procreations hold dangers in themselves, because the offspring thus conceived can with absolute certainty decay into hardly recognizable mutations, which in the course of time gradually turn entire forms of life into physical and consciousness based abortions and miscarriages.

## // Plejaren Contact Report //

- *The process of artificial insemination carries a considerable risk of causing mutations that are not detected and which can gradually cause physical and mental degenerative effects.*

- *This means that males and females cling to each other and experience the act of procreation together. Actually – except bacteria etc. – all material life forms procreate through males impregnating females.*

◆ Version of English translation: 09:22, 27 August 2020 Earth Human Being

'Billy' Eduard Albert Meier

That's interesting.

'Billy' Eduard Albert Meier

But then how can a woman have offspring if her spouse is not fertile?

Semjase

33. Our people and also many other races in the universe have two possibilities in such cases:

Semjase

34. The first possibility is to fertilise the man concerned.

Semjase

35. But this possibility also exists with a woman.

Semjase

36. However, where a man cannot be made fertile, there is the possibility of mating with another fertile man.

'Billy' Eduard Albert Meier

Does that mean that the woman then sleeps with another man?

'Billy' Eduard Albert Meier

That would give us earthlings a big stink, because here somewhat different views prevail.

'Billy' Eduard Albert Meier

What kind of man is that?

'Billy' Eduard Albert Meier

And what about dear jealousy and adultery?

'Billy' Eduard Albert Meier

Aren't the husbands and wives going crazy?

Semjase

37. You think correctly, the woman will be mated to by a strange man.

Semjase

38. But he himself must be attached to a woman, that is married, as it is called with you.

Semjase

39. This is a law of order.

Semjase

40. According to the laws of order, this form of mating does not constitute adultery because it is an act in the sense of Creation.

Semjase

41. Jealousy cannot therefore already appear because these people are aware of the laws of Creation and therefore also obey them.

Semjase

42. It is also important that all partners reach a decision on such a mating in complete and mutual agreement.

'Billy' Eduard Albert Meier

I find that a quite ingenious solution, but can any man be consulted for such an act of procreation?

Semjase

43. No, it's not like that:

Semjase

44. The man to be chosen for this act must have already conceived the limit of his own offspring.

Semjase

45. Furthermore, his overall evolution has to correspond to a certain high level.

'Billy' Eduard Albert Meier

This means, therefore, that not everyone should simply be responsible for this task.

'Billy' Eduard Albert Meier

Many men would want such a job with us, because sexual satisfaction and degeneration is unfortunately still very important for us.

Semjase

46. I am aware of that.

Semjase

47. With our race and also with many others however, these forms of thinking have long been forgotten.

Semjase

48. Today this is a very honourable and good task ...

◆ Version of English translation: 09:22, 27 August 2020 Earth Human Being

'Billy' Eduard Albert Meier

... you just told me that you find sexual activity pleasant.

Semjase

52. Did I really?

'Billy' Eduard Albert Meier

Are you ashamed of that?

Semjase

53. I didn't want to talk about that.

'Billy' Eduard Albert Meier

But now you've done it anyway.

'Billy' Eduard Albert Meier

And if you've already started, you can explain the rest.

Semjase

54. The only reason I didn't want to talk about it was because I didn't think it was important.

Semjase

55. I am not ashamed to talk about it.

'Billy' Eduard Albert Meier

But this is important for earthworms, because many believe that extraterrestrials are different in every way.

'Billy' Eduard Albert Meier

So it'd be good if you'd do some reporting.

Semjase

56. If that's so ... good:

Semjase

57. These factors are probably described in brief outlines, because they are the same for all human life-forms bound to a body.

Semjase

58. When man and woman sleep together, their thoughts move in quite imaginative paths, which trigger emotions in various forms, whereby physical and mental stimulus zones are set in motion and fill the body as well as the thoughts and feelings with pleasure.

Semjase

59. These stimuli are very pleasant to call and fulfil the life-form with all sorts of desires and disinhibitions, which every life-form needs and thus loosens up in its outermost form.

Semjase

60. This is the case with any kind of human life-form, including ours.

// Plejaren Contact Report //

- *The Plejaren are no exception.*

- *Sexual pleasure can be experienced by all human life-forms that are bound to a physical body.*
