

# THE TRANSIT OF MERCURY

Such planetary alignments are said to intensify the bond and energies associated among the alignment. Thus what normally would occur on Earth as a prophetic parallel perhaps will be all that more immensely intensified as there has not been such a planetary alignment in recent memory. From the May 9, 2016 Transit of Mercury to the end of the month, the Solar System will have a double alignment. The planets of Uranus, Neptune, and Jupiter along with Pluto will configure a Celestial Cross. At the same time, the 7 remaining heavenly bodies of Venus, the Sun, Mercury, the Moon, Earth, Mars and Saturn will comprise an alignment upon the 'celestial cross'. This study will attribute this alignment as a 'Menorah' pattern and typology in the illustration with the Moon being the fulcrum. Based upon one Jewish calendar, the Passover in 2016 is on April 23rd. It is 16 days to May 9<sup>th</sup> when the Transit of Mercury begins. The Christian Pentecost and alternative date is on May 15, 6 days after the transit but on the Hebrew calendar Pentecost is on June 11<sup>th</sup>, some 80 days later. Purim will be exactly 30 days prior to the Transit of Mercury, 1 lunar cycle.

## TORAH CALENDAR 2016

Purim	Feb 25	
Passover	Mar 23	Blood Moon eclipse
Shavuot	May 14	
Rosh HaShanah	Sep 01	Annual solar eclipse
Sukkot	Sep 15	Blood Moon eclipse

## RABBINICAL (HEBREW) CALENDAR 2016 CURRENTLY USED

Purim	Mar 23	Blood Moon eclipse
-------	--------	--------------------

Passover	Apr 22
Shavuot	Jun 11
Rosh HaShanah	Oct 02
Sukkot	Oct 16

## Celestial Cross and Planetary Alignment at Start of Transit of Mercury

~May 7 to May 21, 2016

Climax at Full Moon

## Menorah Pattern

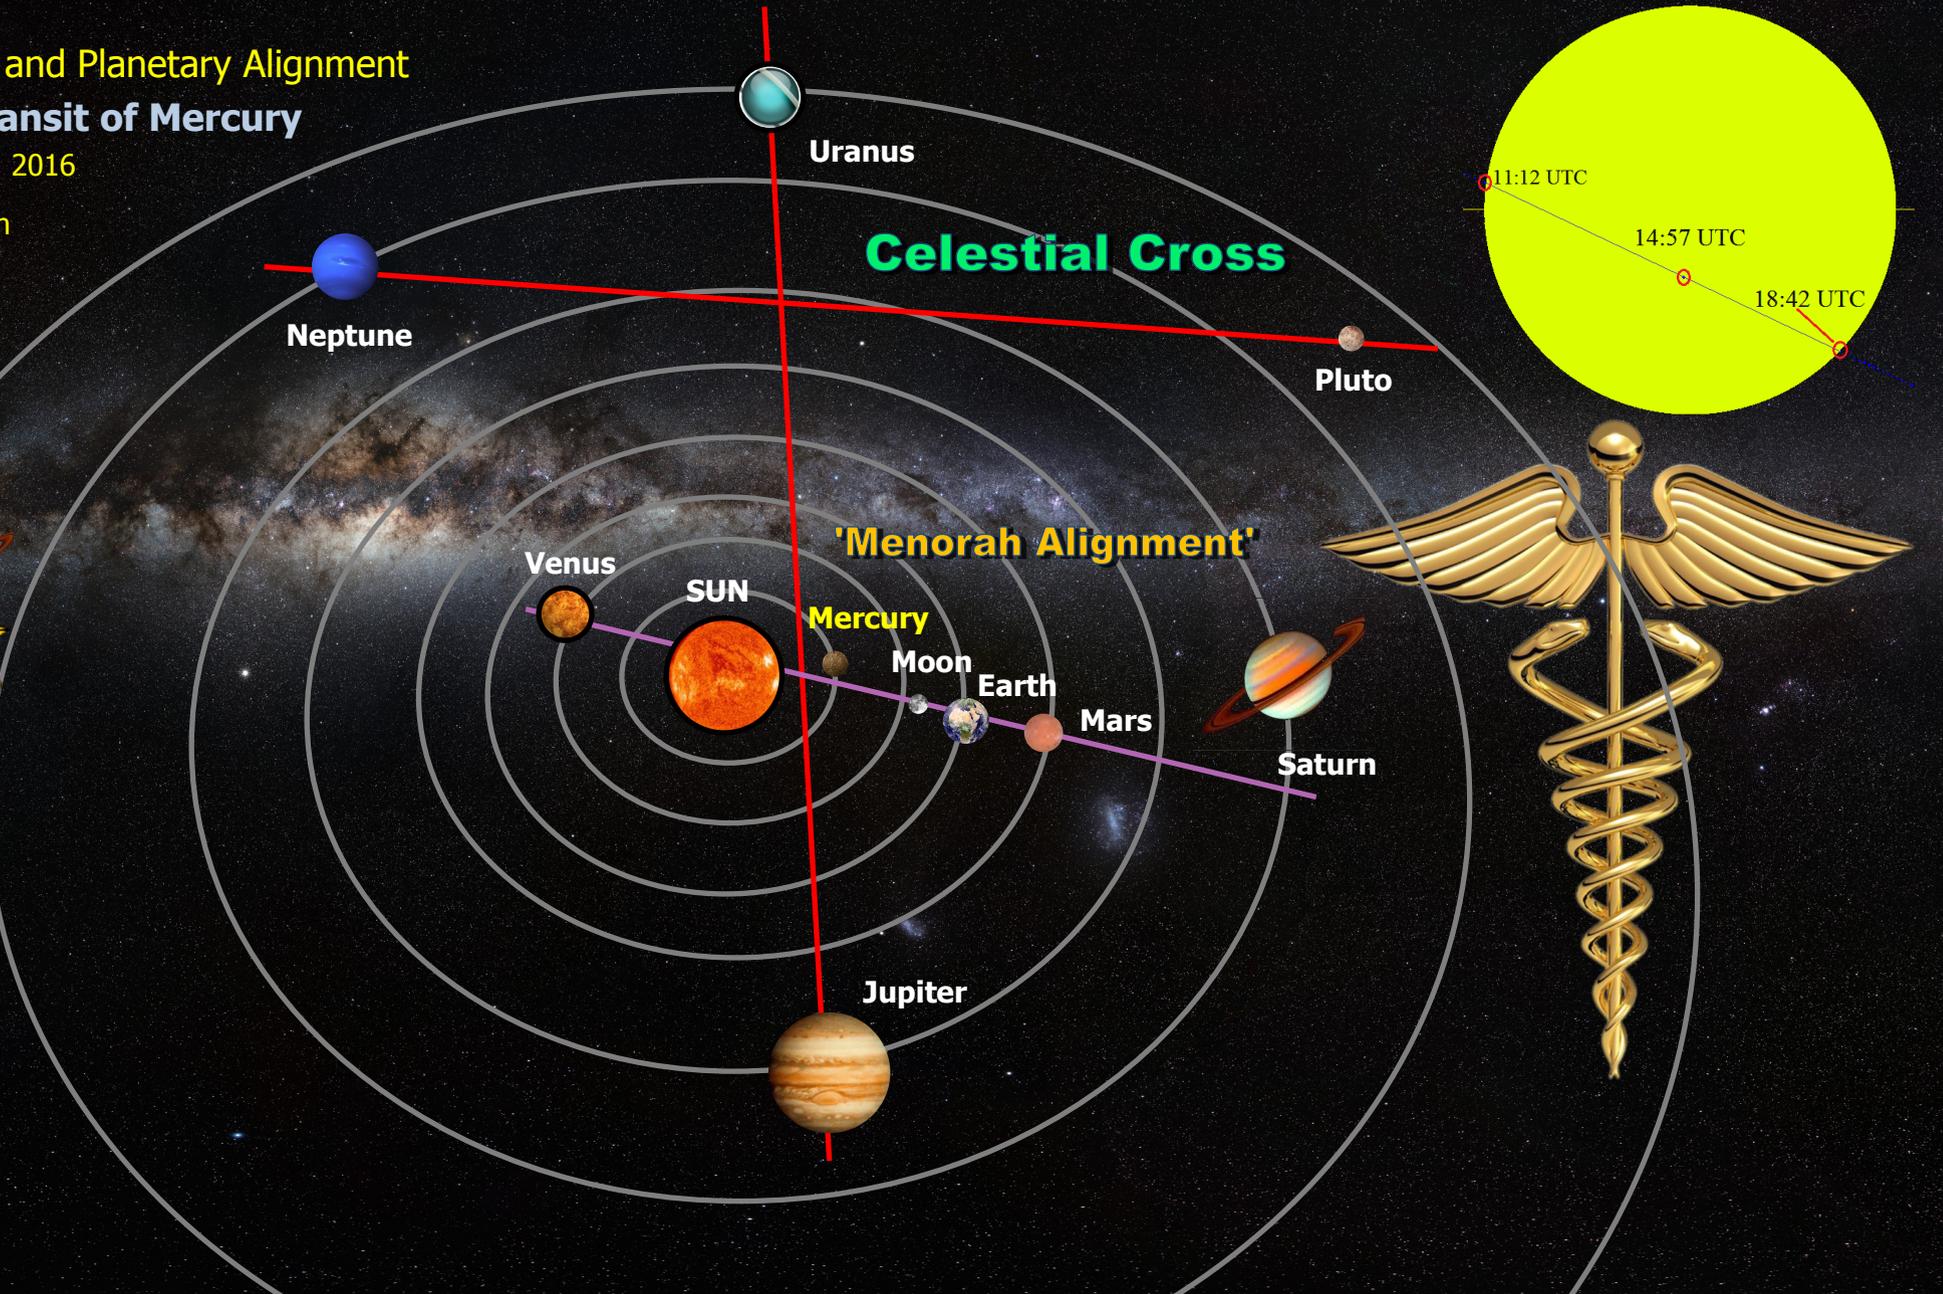

May 21, 2016  
FULL MOON

## 7 Heavenly Body Alignment

If one uses the Torah Calendar, the entire year synchronizes to an alternative correspondence with other eclipses that mirror the pattern in 2015. The Torah Calendar has Passover occurring on this Blood Moon on the 23<sup>rd</sup> of March.

Shavuot or Passover is on May 14 and the New Year or Rosh HaShanah is on the 1<sup>st</sup> of September in which an Annular solar eclipse occurs. 15 days later, Sukkot or the Feast of Tabernacles occurs also on a Blood Moon as were the case in 2015.
