BUILT AROUND YOU

E18SR

A GREAT SMALL GENIUS

NEW ENGINE Little powerful engine

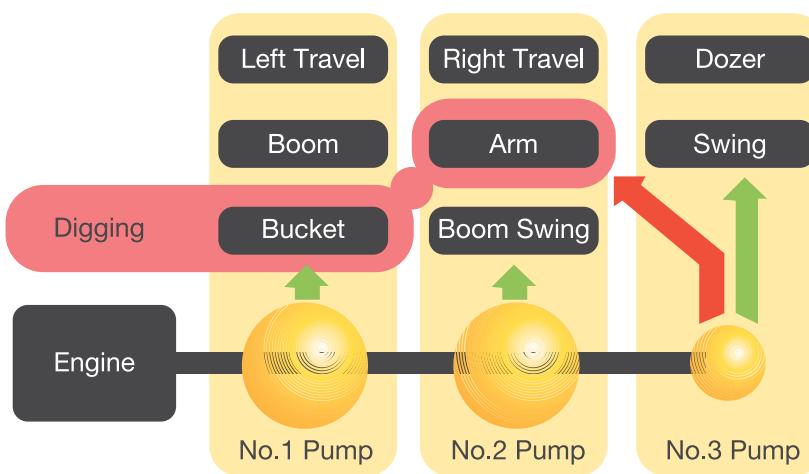

The E18SR mounts a top class, last generation engine with a small displacement, low fuel consumption, environmentally friendly and with an exceptional high power

11.3 kw / 15.2 hp

COMPACT AND STABLE Compact, variable gauge undercarriage, and foldable blade

Features which grant the operator:

- Zero tail overhang, for easy working condition in very tight space and no concern about what is happening behind the machine
- A small working distance of only 2120 mm, to safely work in very tight quarters
- To enjoy the comfortable and safe stability of the machine with fully extended undercarriage gauge and blade
- To use the narrow undercarriage gauge and folded blade to go through very narrow passages
- To easily load the machine on a 2.0 tonne truck

OUTSTANDING HYDRAULIC PERFORMANCE Same solution of upper class models: integrated flow pump system

The instant the machine begins to dig, extra output from the third pump (which otherwise powers the swing and dozer circuits) is directed to the arm circuit for added power and speed. This ensures, even under heavy loads, fast and smooth arm operation and total simultaneous movements.

New, efficient, comfortable, durable and economic: a great small genius to boost your profitability.

SPECIFICATIONS

MAIN FEATURES

Net flywheel power (ISO14396 / ECE R 120).....	11.3 kW/15.2 hp
Operating weight with rubber shoes and canopy	1650 kg
Rear swing radius.....	660 mm
Maximum digging depth.....	2370 mm
Breakout force: bucket.....	15.2 kN
dipper stick (980 mm).....	11.3 kN
Transport length	3420 mm
Transport width (retracted track).....	990 mm
Transport height with canopy	2350 mm
Max bucket capacity	44 l

ENGINE

Make/Model.....	MITSUBISHI / L3E-W231KBS
Type	4-stroke diesel
Number of cylinders	3
Displacement	0.95 litres
Bore x Stroke	76 x 70 mm
Governed rpm.....	2200
Maximum torque at 1800 rpm	53.5 Nm

ELECTRICAL SYSTEM

Batteries.....	1 x 38 Ah
Voltage	12 V
Alternator	40 A
Starter motor.....	1.6 kW

HYDRAULIC SYSTEM

S.H.S. (Smart Hydraulic System) with two axial piston variable displacement pumps and one gear pump for completely simultaneous movements, including blade and slewing.

The three pumps ensure full use of all installed hydraulic power in individual and combined movements.

Pumps:

Variable displacement pump delivery.....	2 x 16.3 l/min
Gear pump delivery.....	11.4 l/min
Maximum operating pressure.....	216 bar

SWING

Hydraulic motor.....	axial piston type
Swing speed.....	9.0 rpm
Swing brake	hydraulic
Boom swing angle: - left	65°
- right.....	55°
Rear end swing radius.....	660 mm

The short rear end swing radius allows operating in narrow spaces.

UNDERCARRIAGE

Length of track on ground.....	1210 mm
Gauge (track retracted/extended)	760 - 1090 mm
Shoe width (Rubber).....	230 mm
Ground pressure	0.24 bar
Lower rollers	3
Travel speeds	2
Travel speed range.....	2.0/4.0 km/h
Maximum continuous slope	58% (30°)

BLADE

Type	foldable
Width x Height	990 - 1320 x 250 mm
Blade lift	280 mm
Blade lower	270 mm

CAPACITIES

Fuel.....	litres
Coolant	22.0
Engine oil	3.7
Hydraulic system.....	3.5
.....15.0
