Dorothy Day (Why I Love Sunrider)

At 5: 00 a.m. on July 25, 1988, I awakened from a sound sleep, rose to an upright position, and said “Sunrider” aloud. I had heard of Sunrider four years prior to this day. I crawled out of bed to look for the Sunrider business card and literature I was given, but I wasn’t successful in finding them. I then crawled to my love seat in the den and meditated on Sunrider. Within five minutes my telephone rang and a friend asked me to attend a meeting that night. I refused several times during the conversation, but finally said, “Tell me what the meeting is about and I will tell you what I will do.” My friend said, “It’s about whole pure food herbs in a—” I interrupted her and said, “Is it Sunrider?” She replied that it was and I said I would go. That evening we went to the meeting. It was a great meeting. I drank Calli®, and then I drank NuPlus® Simply Herbs with Quinary® and Sunny Dew®. I enjoyed the foods and brought home a Sunpack®.

Now, 24 years later, not only do I use all the Sunrider® products, but I’ve also introduced many others to Sunrider. Sunrider is so simple—NBC. Just nourish, balance, and cleanse. Not only are the products great, but what I really love about Sunrider is it’s “Simply the Best™”!

Thank you Drs. Tei-Fu and Oi-Lin Chen for providing the world with these wonderful foods!
