Angel Academy Handbook

Our mission statement at Angel Academy is to provide children with a positive, stimulating and nurturing environment in which each child can reach their fullest potential intellectually, socially, emotionally and physically.

Angel Academy believes that each child should have the opportunity to learn in an intellectual, physical, social and emotional environment which enables him or her to successfully reach his or her fullest potential as a whole individual.

Finally, Angel Academy believes that a child is most able to reach his or her fullest potential when there is cooperation between the preschool, home and community.

Our class is composed of a variety of unique, little individuals. We will strive to be concerned for all students as we will teach in a variety of learning styles to ensure your child will be challenged to learn and feel his or her purpose in our classroom. We will be firm, fair, friendly, consistent and prepared.

* \$30.00 fee will be charged for insufficient funds.

* \$15.00 will be added to your bill if you drop your child off before the designated start time.

* \$15.00 late fee will be added if you are late picking up your child more than 5 minutes.

Refund of Fees:

If at any time of the year your child needs to discontinue our services, you will not be required to pay for a month in which your child did not attend. However, if your child started the month out and discontinues our services part way through the month, you will not be refunded that month's tuition or registration fees. There is also no refund on fees for vacation, sick or storm days that your child misses.

If Angel Academy feels like they cannot meet the needs of your child throughout the year Angel Academy has the right to discontinue services at the end of any month. The parent will not be responsible for any further payments for the year and registration will not be refunded.

Discipline:

In the event your child is acting inappropriately, we will discuss with your child a more acceptable behavior, and why what he/she did was inappropriate. If a child is unable to demonstrate self-controlling behavior, Angel Academy will use 123 magic and a brief time-out will result for the child to regain control. Time-out occurs only when other measures fail, and is used as an opportunity for the child to re-group, not as a punishment. If the problem still persists, we will make a phone call to you, asking you to pick your child up for the remainder of the day.

Angel Academy uses *indirect guidance* techniques such as these:

- We give advance warnings: "You have five more minutes to play before it's time to clean up."
- We give choices during free time: "You may paint with the other children or you may read a book."
- We have regular routine: "We always wash our hands before snack. During snack is story time."
- We avoid nagging: We tell the child what we expect just once, follow it by asking the child if he/she remembers what we asked, and then offer to help the child do what was asked.

We also use *direct* guidance techniques:

- We use affirmative: "We use walking feet indoors" rather than "Don't run!" or "Use your words to tell us you're angry" rather than "Don't hit!"
- We get the child's attention by making eye contact, speaking quietly, and asking the child to repeat the directions.
- We try very hard to be fair. We examine our expectations to make sure they are age appropriate, and we don't make rules just because an activity is too noisy or messy.
- We avoid arguments by following through with solutions that address the problem, but also offer the child a way to exit gracefully from the problem: "What could you have done differently."

At Angel Academy, the discipline goal is educating and redirecting children.

Illness:

If your child is ill with a fever, flu or any other contagious illness, please refrain from bringing your child to class that day. If your child becomes ill during school, we will notify you immediately and ask you to pick your child up. Please do not bring your child to class within 24 hours of a fever or vomiting.

Medication:

An "authorization to give medication" form must be filled out before any type of medication can be administered, Even Tylenol. All medications must be in the original container with the dosage label still attached. When asked to administer nonprescription drugs, such as Tylenol or cough syrup, we will not give larger doses at a parent's request. Only the recommended dosage will be given.

Accident Policies and Procedures:

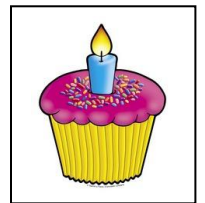

Minor scratches and scrapes will be treated with TLC and a Band Aid. More serious cuts, bumps, or bites will be properly treated and the incident recorded by a witness. Upon departure, parents will be told about the incident and will be given the form to read. The form will be kept in the child's file. In the event of emergency medical treatment where the child is transported to another facility, an adult from the preschool shall remain with the child until the parent or responsible party arrives. With this in mind, please be complete in filling out the emergency care section of the child information sheet.
