

# Top Ops Competition

**Thursday, September 2<sup>nd</sup> at the Tri-Association Conference in Ocean City, MD**

The Top Ops competition is a fast-paced operator contest that uses a format based on the popular *College Bowl* program. These popular operator contests showcase operator ingenuity, know-how, and demonstrate the effectiveness and professionalism among those in the water supply/distribution sectors.

Teams of 1-3 operators/maintenance/lab individuals answer questions about water treatment, water distribution, maintenance, and laboratory practices.

If you think your team is the best in the business, be sure to enter them in the 2021 Regional TopOps competition being held at TriCon next month.

The winning team at TriCon will represent the Chesapeake Section at the 2022 National Top Ops competition to be held at ACE22 San Antonio, TX where they will go head-to-head against the winners from other regions across the country.

To enter your team, or for more information, contact Anthony Rocco at:
