

SAN FRANCISCO PLEIADES STAR MAP I

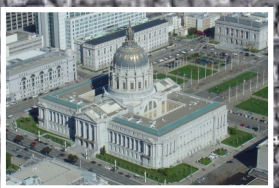

The illustration suggests that the core area of the San Francisco, California incorporates the Cydonia, Mars pyramid motif. The 3 main structures are the Face of Mars, the giant Pentagon Pyramid and the Pleiadian Pyramid City. The Face of Mars corresponds to the AT&T Stadium. The Pleiades City corresponds to the Financial District. The Pentagon Pyramid corresponds to the area of the City Hall area. The entire motif does appear to follow the city grid ley-lines of Market Street and the Freeway 80 that leads to the Bay Bridge. The Pleiades pattern is construed by several prominent towers, many the Trans-America Tower. This tower corresponds to the star Celaena. The star Taygete corresponds to the Bank of America tower. There are also 2 towers that corresponds to the stars Atlas and Pleione.
