Crime Risk Index (100 = National Average): Index score for an area is compared to the national average of 100. A score of 200 indicates twice the national average total crime risk, while 50 indicates half the national risk. We encourage you to consult with a knowledgeable local real estate agent or contact the local police department for any additional information.

Crime Indexes are based on numerous current and historical datasets as well as proprietary modeling algorithms which estimate values at more granular geographic levels when specific data is either unavailable or impractical to aggregate. While every effort is made to ensure accuracy, these are estimates and should only be used as a guide. For detailed information regarding crime and safety in a community, please contact local law enforcement agencies. Information is deemed reliable but not guaranteed. [Demographic Information FAQ](#)
