

# TETRAD FULL MOONS

## STUDY OF POSSIBLE RAPTURE TIMEFRAME

### *Typology of Boaz and Ruth Marrying after Summer Harvest*

by Luis B. Vega

[www.PostScripts.org](http://www.PostScripts.org)

*'YHVH, our LORD, How majestic is your Name in all the Earth! You have set your Glory in the Heavens. Through the Praise of Children and Infants you have established a Stronghold against your Enemies, to silence the Foe and the Avenger. When I consider your Heavens, the work of Your Fingers, the Moon and the Stars, which you have set in place. What is Man, that thou art mindful of him? and the Son of Man, that you visited Him?' -Psalm 8:1-4*

The purpose of this study is to show the Tetrad of 4 Full Moons in 2021 that appear to be a sort of countdown or prelude to the Fall Feasts of YHVH. The question is, could that be pertaining to the Rapture event to close-out the Church Age perhaps? What is unusual is that these are 4 consecutive Full Moons, spanning 88 days that occur within the time frame of the Summer Solstice of June 20 and the Fall Equinox of September 22. For those that are into the study of Numbers, 88 is recognized as dealing with an 'End of Time' or of a Time Period that is based on a Countdown.

The 1<sup>st</sup> 2 Full Moons occur in the Sign of Sagittarius. The 2<sup>nd</sup> 2 Full Moons occur in Aquarius. The Tetrad, which means '4' of the Full Moons occur during the Season of Summer. Normally there are only 3 such Full Moons per Season. The 3<sup>rd</sup> Full Moon is called 'Blue' because normally in a month, only 1 Full Moon is observed. However, on a rare occasions, there can be 2 Full Moons. These 2<sup>nd</sup> Full Moons are thus called a Blue Moon. These 4 Full Moons within a Season occur about every 2.7 years.

Why this time frame is perhaps significant for 2021 is that it is believed by some that are looking and calculating for the Rapture event, that this double sets of Full Moons or a Tetrad, perhaps are Signaling the time of the end. And 'end' to what? Could it be of the Summer Harvest, but prophetically significant and may be related or pointing to the Rapture? This assertion is based on the Boaz and Ruth typology in how they waited until after the end of the Summer Harvest to get Married. Normally, the Summer Season in Jewish custom, like in most other cultures is the time for Joyful Weddings, etc.

This is before the time comes for the Fall Feasts of YHVH to commence, which for Israel are more about a somber period of Introspection, Repentance and Atonement. It is not time for Joyful Weddings, etc. If the Boaz and Ruth typology is in play and the Rapture event is to occur in 2021 to close-out the Church Age, then the time after the Tetrad of the 4 Full Moons is something to consider and watch. Also note that if one applies the Phi Ratio proportion of time from the 1<sup>st</sup> Full Moon of June 24, 2021 which starts as a Super Moon to the end of the Fall Feasts, to conclude with the 7 days of Tabernacles, the nexus point corresponds to around September 23, 2021 or 923.

## **Rapture Zone?**

The point is that although many have been disappointed in failed calculations of when the Rapture event was to have occurred for 2021 and in all prior years, there is yet a small Window of Time, or a 'Zone' right after the Fall Equinox that are preceded by the Tetrad of the 4 Full Moons in 2021. It would constitute the 'Deferment' of the Wedding of Boaz and Ruth. Why? The bringing in of the Harvest took precedence over their desire and longing to be wedded. Perhaps this same typology will be in place or is in place in how the 'Harvest of Souls' on Earth takes precedence. But the Wedding of Jesus to His Bride, like a Ruth will surely come, after the Summer Harvests. In 2021?

To reiterate, this study considers some factors that could lend more insight into the timing of the Rapture event for 2021, if it is to take place in 2021. Consider that for those who are watching closely for the Rapture event and seek to present calculations as to the 'Season', there are many discrepancies and angst over which 'Calendar' is to be used. For 2021, there has been a high expectation since the Summer Season started. More precisely, the notion that the actual Feasts of YHVH are pegged to the Spring Equinox and Fall Equinox shed some new revelation of how the reckoning of Prophetic Time is really to be understood and counted.

Some studies suggested that the true count of the start of the New Year happens on the Spring Equinox. Others suggest that it is the at the 1<sup>st</sup> sighting of the New Moon Sliver after the Spring Equinox. This would synchronize the Passover to then always fall on a Full Moon. With this in mind and count, for 2021, it was then calculated that on June 20, 2021 was the actual day of Shavuot. This was the 49<sup>th</sup> Day Marker and as TW Tramm rightly noted, it happened to be the Summer Solstice, precisely. However, the time has transpired and even passed the additional 50-Day Count. Some have proposed is alternative count as the correct rendering of how Pentecost is to be determined.

But these various calculations to determine the Rapture has not panned-out either. This is of course if one is insinuating that the Holy Spirit is to depart at the Rapture event -on the exact same day that it came down on the Apostles, etc. This may not be the case after all. Now, this does not mean that the true Pentecost was actually commemorated either on the 49<sup>th</sup> Day, that being the Summer Solstice of June 20 for 2021 as Shavuot. Or that it could have been also then based on the Double-Count of the additional 50 days. This interpretation would have occurred, 'When Pentecost Fully Came' then on August 8, 2021.

This date then coincided with the Summer Feast of New Wine. Then there was the factor of Tu B'Av, the Jewish Valentine's Day commemoration of the 'Rapture' of the Jewish Maidens that were taken by the Men of the Tribe of Benjamin, etc. When the 'Rapture' of the Bride of Christ did not occur even then, this is when many started to scratch their heads and return to the proverbial 'Drawing Board'. Then on top of all these 'Layers in the Onion', there is the additional factor that one is going to enter the 7<sup>th</sup> Year of the 7-Year Sabbatical Cycle. Meaning? That as there is no 'Harvest' allowed in the 7<sup>th</sup> Year; that it then prophetically correlates to how the year 2021 is the 'Last Year' to 'Harvest Souls'. The Church Age has to end sometime.

## **Once in a Blue Moon**

This to say that the subsequent Shemitah Cycle of 7 years has to correspond to Daniel's 70<sup>th</sup> Week of Years. Or in other words, that when the Tribulation Period is to start, it has to start at the beginning of a new 7-Year Sabbatical Cycle. This Cycle will commence in the Fall of 2022 and end in the Fall of 2029. Of course, one can be totally off about this. Why has the Rapture event not occurred yet in 2021 then? Well, the conjecture is that perhaps the 2021 Calendar is off by 1 month. The following are the specifics of the 4 consecutive Full Moons of the Summer Season, 2021.

### *June 24 - Full Moon, Supermoon.*

*This Full Moon was known by early Native American Tribes as the Strawberry Moon because it signaled the time of year to gather ripening fruit. It also coincides with the peak of the strawberry harvesting season. This moon has also been known as the Rose Moon and the Honey Moon. This is also the last of 3 Super Moons for 2021. The Moon will be near its closest approach to the Earth and may look slightly larger and brighter than usual.*

### *July 24 - Full Moon*

*This Full Moon was known by early Native American Tribes as the Buck Moon because the Male Buck Deer would begin to grow their new Antlers at this time of year. This moon has also been known as the Thunder Moon and the Hay Moon.*

### *August 22 - Full Moon, Blue Moon*

*This full moon was known by early Native American tribes as the Sturgeon Moon because the large sturgeon fish of the Great Lakes and other major lakes were more easily caught at this time of year. This moon has also been known as the Green Corn Moon and the Grain Moon.*

*Since this is the third of four full moons in this season, it is known as a Blue Moon. This rare calendar event only happens once every few years, giving rise to the term, 'Once in a Blue Moon.' There are normally only 3 Full Moons in each Season of the year. But since Full Moons occur every 29.53 days, occasionally a Season will contain 4 Full Moons. Blue Moons occur on average once every 2.7 years.*

### *September 20 - Full Moon*

*This Full Moon was known by early Native American tribes as the Corn Moon because the Corn is harvested around this time of year. This Moon is also known as the Harvest Moon. The Harvest Moon is the Full Moon that occurs closest to the September Equinox each year.*

There are those that believe that a 13<sup>th</sup> month is needed to be incorporated into the count, somehow. However, even with this notion of an additional month that pushed all the Summer Feasts forward, the Rapture event has not happened. What is wrong? Consider that, again, what if the corresponding anniversary is not what YHVH is using nor will when the Rapture Trumpet Call comes sounding?

What if the Rapture Zone is actually synchronized to the Sun, Moon and the Stars as even the Apostle Peter alluded to Joel on Pentecost? What if Christ Jesus is 'Signaling' the Rapture Countdown in a series of these 4 Full Moons? A Full Moon Tetrad? Why? Realize that in 2021, there is a very rare alignment of these 4 Full Moons that do not occur normally. And moreover, they happen to 'countdown' to the Fall Equinox.

## After the Summer Harvest?

Thus, is the Rapture event itself to occur within this space and time? Or after this 4-month countdown as the typology of Boaz and Ruth suggests, being after the Summer Wheat Harvest? Yes. But what if the Rapture event is to occur after? Despite one advocating an Enochian Calendar Count that is pegged to the Spring Equinox, and how there is a Double-Count to determine true Pentecost of a 49-Day + a 50-Day count, what if the Rapture event is indeed then to follow the typology of Boaz and Ruth after all? Then notice when they occur.

### *Tetrad of 4 Full Moons within a Season - Summer*

1. June 24, 2021 in Sagittarius Super Moon
2. July 23, 2021 in Sagittarius Buc Moon
3. August 22, 2021 in Aquarius Blue Moon
4. September 20, 2021 in Aquarius Harvest Moon

They actually span the time nearly exactly from the Spring Equinox to the Fall Equinox. Is this significant? Well, yes but only as far as that such a Full Moon Tetrad appears to signal the 'End of the Harvest'. Consider also how the 4 Full Moon Tetrad occurs in Sagittarius and then in Aquarius. These 4 Full Moons, a 'Tetrad', spanning from June 24, 2021 to September 20, 2021 is a 120-day count of 4 months x 30 days. Jesus alluded to that being the time of a Harvest. Thus, for 2021, there is a precise Equinox to Solstice timeframe, marking-out this particular Summer Season that is rather rare.

It is as if Christ Jesus is wanting the Bride to take note as an important Astronomical Signaling perhaps. The Fall Equinox marks the end, Astronomically of the Summer Harvest. So, perhaps the 'Wedding' after the Harvest is to be also 'out of season' as was the marriage time of Boaz and Ruth. Note that Boaz and Ruth that they waited to get married after the Wheat Harvest. Of course, there are the Fall Feasts that many believe could still coincide with the Rapture.

It is when the Fall Feasts begin that one is of the opinion that no Rapture event can occur. Why not? It has already been written about that the Fall Feasts of YHVH are all about Repentance, Introspections, Atonement, etc. They are of a somber constitution and not of a joyful and colorful time for weddings. The 4 Full Moon Tetrad timeframe delineating the Harvest Timeframe is amazing. But what of the period just after it to then coincide with the time just after the Fall Equinox and the beginning of the Fall Harvest Festivals celebrating the end of the Summer Harvests? Perhaps end of the Church Age too? That is yet to be determined, but from what is occurring worldwide, it is close.

So, one can consider that any time after the Astronomical delineation of September 22 is a timeframe that is to be considered also for the Rapture Zone, nonetheless. Why? Because if one then keeps to the typology of Boaz and Ruth, they waited after the Harvest. It was not the norm and perhaps it will not be either with the Bride of Christ and its Rapture timing. But it would appear that in the case of Boaz and Ruth, the insinuation is that they 'waited' for their Marriage Time after the Summer Harvest when in reality, it was not the norm to do so in keeping to Jewish custom. For them, the 'Harvest' was far more important.

## **End of the Harvest**

And is that not what would be the disposition of Jesus and His Bride currently still on Earth 'Harvesting' Souls as a type of Boaz and Ruth? This is how one should be looking at the Rapture event. Although the World is fast approaching a Catharsis, it is being induced by the God of this World through a Mass Psychosis. The COVID-19 Pandemonium has been used to foster this conditioning to enslave the whole World.

One would rightly want to ride oneself of this World and to be with the Groom, the Kinsman Redeemer as in the case of Ruth. However, as those that see the danger the World is in now and what coming that will be far worse, how much more is the time precious to redeem and work the Harvest still. Boaz and Ruth agreed to wait until the Harvest was all secured and taken in. So too, Jesus and His Bride must see to it that 1 more person can be saved from what horrors lie waiting. The Enemy knows this also and uses the same Astronomical Markers to make his moves.

For example, it was on the 33<sup>rd</sup> Week of the year that the Taliban rolled in to Kabul. Then consider what occurs after August 22, 2021, when the 3<sup>rd</sup> of the Blue Moons happened. The day after, the FDA of the USA, approves the Pfizer Injection for COVID-19, giving Full Approval, to no longer 'Experimental'. This is not a coincidence. But realize that the Trial Data and Results Report submitted to the FDA was solely done at the discretion of Pfizer paid Scientists. It has had no Public oversight and the FDA is taking the 'stellar results' at face value. The time is winding-down for 2021. The Summer of 2021 was just an engineered 'respite'.

What is coming next for the Fall of 2021 is a much harder repressive Lockdown with Draconian Measures as now 1 of the Corporate Engineered COVID-19 Shots are Fully Approved. This will provide now the legal cover for the Authorities to then Legally Mandate all those that are Resisting the Toxic Poison Death Shot, as Dr. Zelenko calls them. The World has been weakened and 'softened-up' due to their relentless 'Waves of Terror' being waged against Humanity, collective and presently. Many are asking, how much longer the Little Flock of the Bride of Christ can keep up the Resistance. The point is that if the Rabbinical Calendar is off by a month and that the 4 Full Moon Tetrad is an Astronomical Sign, then perhaps the Bride still has to wait-out the time from September 22 to October 7, 2021. Why?

The Fall Feasts of YHVH need or should be occurring after the Fall Equinox. As it is for 2021 based on the Rabbinical Calendar, the 'Fall' Feasts start before the Fall Equinox time and thus are technically starting-out as a Summer Feast. This cannot be. Rosh HaShanah does not start when it is technically still Summer. This is why there is still the Window of the Rapture 'Zone' to consider and watch if it is to occur in 2021 after all. For 2021, the 1<sup>st</sup> sighting of the Sliver of the Moon occurs on October 7<sup>th</sup>. Thus, the timeframe from September 20, being a Full Moon and on the heels of the Fall Equinox to October 7, is the last possible Rapture event 'Window' of time for it to occur in 2021. If not, then on to 2022 and the calculation for the Rapture Season continues as the Bride still is to watch and wait as it continues to help its Redeemer 'Harvest Souls'.

But perhaps the 4 Full Moons of the 2021 Summer Season have been or will have been the countdown to the very actualization of the Rapture event. It will be like many have compared it to the Red Sea Moment in time. This is due to the COVID-19 Injection Mandates that are equally a 'Death Sentence' that the 'Pharaoh' of this World has mandated.

Resist.

As the tension will be mounting on Earth from all sides in Society, consider that the 'Battle' belongs to the LORD. Jesus Christ knows the peril and the danger His Bride is under. And perhaps the Church Age has indeed come to a close. The presence of the 'Light' and 'Salt' of the Church Body on Earth has now overstayed its welcome. It is evident that the World in general will be glad to rid the Earth of the Followers of Jesus. But consider that as the Armies of Pharaoh attempted to seek the departing Remnant, they were all drowned by the same and could not pass. It is the Remnant that will pass over into Glory and will sing the Song of Moses on the other side of the shore as did Mariam and the Israelites.

So too, the Bride of Christ will be soon singing the Praises of the Greater Kinsman Redeemer Boaz, that married the Greater Ruth from out of every Tongue, Kindred and Nation. The Glory will be worth any delay in the Rapture event timing and 'Out of Season Wedding'. The World below will then only look toward and seek their Imposter Savior to 'save' them. Tragically, it will be this false Kinsman Redeemer that will eventually seek to totally destroy them, who blindly hoped they would have been given Eternal Life, Power and Dominion. And this is something Jesus offers a fallen Humanity now, free of charge.

To summarize, if one then take the symbology of Boaz and Ruth, the key to the timing of their Wedding Day will be considered. The story has a particular clue, 'After the Harvest'. Or is it then after the Summer Season. If So, then it would be after the Fall Equinox. The story is set during the time of the judges. As another has summarized it, better than one can have said, Ruth tells the story of how an impoverished Gentile Widow and her Jewish Mother-in-Law, Naomi, find Redemption by way of a beneficent Kinsman named Boaz. Typologically, the Book of Ruth illustrates God's plan of redemption for Israel and the Church.

The most striking aspect of Ruth's story is how the characters model the key players in YHVH's Plan of Redemption. Naomi, the Jew is the one who loses her Land and becomes destitute. She represents Israel. Ruth, a Gentile Bride who willingly accepts the GOD of Israel, represents the Bride of Christ. Boaz, the Kinsman Redeemer from Bethlehem, represents Jesus the Messiah, who is the close 'Blood Relative'. The story itself is a picture of YHVH's Plan of Redemption enacted: The redemption of Naomi's Land prefigures the Last Days Restoration of the Land of Israel in accordance with YHVH's Promise in Genesis 17:8. The Redemption of Ruth by way of Marriage to Boaz prefigures the Rapture, the fulfillment of Christ's Promise to 'Redeem' the bereft/mortal bodies of the mostly Gentile Believers who comprise the Church.

This is promised in [Romans. 8:23](#); [2 Corinthians 11:2](#); and [1 Corinthians. 15:50-52](#). Finally, the question of when is the backdrop to the prominently featured season. The backdrop of Naomi and Ruth's Redemption Story is the Wheat Grain Harvest. And as mentioned, the timing of the Wedding takes place after this. Scripture specifies that Ruth continued to live with her mother-in-law until the end of the wheat harvest as stated clearly in [Ruth 2:23](#). Thus, after the Fall Equinox but not until the Fall Feasts of YHVH to start with the Feast of Trumpets could be the Rapture Zone to watch. However, the question remains then of what year?

---
