

My God's Better Than Your God

Why is your skin the wrong color?
Why is your country so far away?
Your culture's customs are strange to me.
I can't understand a damn thing you say.

My God's better than your God.
We are the chosen ones.
My God's better than your God.
Judgment Day will someday come.

Pray if you want to.
It won't help you.
You can run, but you can't hide.
Bow down before us.
To resist is futile.
We know God is on our side.

My God's better than your God.
We are the chosen ones.
My God's better than your God.
Judgment Day will someday come.

The future is clear.
The world is ours.
Our way of life is the only way.
You go to hell.
We're going to Heaven.
Hallelujah, It's Resurrection Day.

My God's better than your God.
We are the chosen ones.
My God's better than your God.
Welcome to Kingdom Come.

My God's better than your God.
We are the chosen ones.
My God's better than your God.
The Day of Reckoning has finally come.
