

BATSNER CO. SINCE 1919

BATSNER COMPANY

a division of Henry M. Wood Company WWW.BATSNER.COM

Bulk Materials Handling Equipment • Level and Inventory Control Equipment • Process Controls
Flame and Toxic Gas Detection Equipment

Batsner Material Handling

Rotary Airlock Feeders for bulk material. Designed to fit your setup. No Product Degradation. Minimal maintenance, efficient and easy to use.

Self-lapping metal disc valves for dry bulk materials and slurries.

The Smart Elbow® for pneumatic and slurry conveying systems virtually eliminates elbow wear, product degradation, plugging, surging, cross-contamination, noise, turbulence, etc.

Bulk bag fillers and bulk bag unloaders. Affordable Storage and Dispensing Systems. Complete engineering for both manual and complete automation.

Manufacturers of Batch, Continuous, Hi-Intensity Mixers, Size Reduction, Shredder and Pulverizer Equipment and De-Lumpers.

Solving material handling problems that no other valve can handle. Plattco's Double Flap Airlock® System ensures the seal is never broken.

Fully pneumatic vacuum conveying. Standard systems constructed with stainless steel with food grade 3-A systems and carbon steel options. Innovating COAX technology to advance Venturi's Principle for versatility and increased performance pump operation.

Product Separation for the pharmaceutical, chemical, plastic and food industry and all others where material screening is required. Designed for both dry and liquid applications.

Batsner Safety and Instrumentation

Single point and continuous level sensors for bulk materials.

Flame, Gas and Smoke Detection. Certified Safety Instrumented Systems that are reliable, functional and flexible.

Light Curtains, safety mats, two-hand controls and safety PLC/HUB.

Punch press automation.

Point and Continuous Level. Volume and Flow Measurement and Control. Solid and Liquid Level Switches.

Single point tip switch level sensors with dampened response for severe applications.

"Ears" for Grinding Mills and Differential Speed Detection.

Batsner Environmental

Skimmers to recover all types of floating waste oils, fats and greases.

DAYTON

INDIANAPOLIS

LEXINGTON

LOUISVILLE

We've been making your business our business since 1919
Centrally located in Cincinnati with regional locations to better serve Ohio, Kentucky and Indiana.

Ross Controls

www.rosscontrols.com

Pneumatic valves, controls systems, and safety products for the fluid power industry.

Pinnacle Systems

www.pinnaclesystems.com

Machine guarding products, electronic safety devices and safety controls including safety light curtains, safety mats, ergonomic palm buttons, and safety relays.

Duramaster

www.duramastercylinders.com

NFPA interchangeable rod cylinders, tie rod cylinders, air over hydraulic cylinders, custom air piston style units.

Parker

www.parker.com

Push lock, compression, barbed fittings, valves, manifolds, and tubing designed for quick and easy assembly.

CPC

www.cpcworldwide.com

Quick disconnect couplings, fittings and connectors for plastic tubing. Specializing in low pressure industrial fluid power, food and beverage, ink, biopharmaceutical, thermal cooling, and liquid dispensing.

Fastest

www.fastestinc.com

Quick connectors for leak testing, pressure testing, performance testing and gas filling.

Oil Skimmers

www.oilskim.com

Oil removal solutions to help manage your waste oil recovery efforts.

BinMaster

www.binmaster.com

Bin level indicators, control systems, and sensing devices used while storing powders and bulk solids.

Ace Controls

www.acecontrols.com

Shock absorbers, gas springs, rotary dampers, hydraulic feed controls, and air springs for automation control, motion control, vibration control and safety.

Autoquip

www.autoquip.com

Lift solutions offering robust lifts and innovative solutions, controls capabilities, and integrative processes.

Positech/Conco Lift Assists

www.positech.com

Industrial manipulators and pre-engineered articulated arms.

Tri-Motion Industries

www.trimotionindustries.com

Engineering and provider of air balancers, hoist controls, and drop stop load arrestors.
