## Signs of Dyslexia

### See 3 or more signs? ASK us for help.

Our specialists will provide an individualized ACTION PLAN to achieve optimal reading success.

#### Preschool

- delayed speech
  - scrambled sounds in long words
  - chronic ear infections
  - stuttering
  - constant confusion of left vs. right
  - late establishment of a dominant hand
- difficulty learning to tie shoes
- trouble memorizing address, phone number, or the alphabet
- cannot create words that rhyme

#### Elementary School

- dysgraphia (slow, non-automatic handwriting that is difficult to read)
- letter or number reversals continuing past the first grade
- extreme difficulty learning cursive
- slow, choppy, inaccurate reading:
  - guesses based on shape or context
  - skips or misreads prepositions (at, to, of)
  - ignores suffixes
  - can't sound out unknown words
  - very poor spelling
  - often can't remember sight words (they, were, does) or homonyms (their, they're, and there)
- difficulty telling time on a clock with hands
- trouble with Math:
  - memorizing multiplication tables
  - memorizing a sequence of steps
  - directionality
- difficulty finding the correct word when speaking (common sayings come out slightly twisted)
- extremely messy bedroom, backpack, and desk
- dreads going to school

#### High School

- all of the previous symptoms
- limited vocabulary
- extremely poor written expression
  - large discrepancy between verbal skills and written compositions
- unable to master a foreign language
- difficulty reading printed music

#### Adults

- slow reader
- may have to read a page 2 or 3 times to understand it
- very poor spelling
- difficulty putting thoughts on paper (dreads writing memos or letters)
- often gets lost, even in a familiar city
- sometimes confuses b and d, especially when tired or sick
