

CERTIFICATE OF ELEVATION

Permit No. _____ Date Issued _____
 Address of Site _____ Lot or Tract No. ____ Square ____
 Subdivision _____ Filing _____
 Contractor's Name _____
 Contractor's City License No. _____ Contractor's State License No. _____
 City Benchmark Used: Number _____ Date of Datum _____ Elevation _____
 FIRM Map No. _____ Date of FIRM _____
 FIRM Zone Designation from Map _____ Base Flood Elevation (BFE) _____
 Elevation of natural grade approximately at the proposed structure slab is _____ ft. _____
 (Datum)

The required lowest floor elevation shall be the highest elevation of the following:

| | <u>Elevation</u> | <u>Datum</u> |
|--|------------------|--------------|
| From FIRM map—value is 0.00 when out of flood zone: | | |
| 1. Base Flood Elevation = _____ ft. + 0.00 ft. | = _____ ft. | _____ |
| Lowest of Sewer manholes either upstream or downstream of service: | | |
| 2. Top of lowest SSMH _____ ft. + 1.00 ft. | = _____ ft. | _____ |
| Average street centerline elevation in front of lot: | | |
| 3. Average Centerline Elev. _____ Ft. + 1.00 ft. | = _____ ft. | _____ |

This is to certify that the required lowest floor elevation of the **proposed** structure(s) is _____ ft. _____
 (Datum)

 Professional Land Surveyor or Reg. Professional Engineer

 Date

(Stamp)

This is to certify that on _____, I surveyed the actual as-built elevations of the structure on the property described above and that the lowest floor elevation of the structure is _____ ft. _____, and the lowest elevation adjacent to the building slab is _____ ft. _____
