 **SMARTWITNESS®**

**KP1S**

All-In-One HD Vehicle Incident Camera with  
Instant 3G Video Transmission of Events

**PROFESSIONAL IN-VEHICLE CAMERA SOLUTIONS FOR  
COMMERCIAL FLEETS**

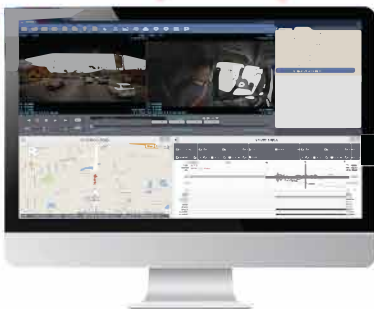

**KP1S** The CGS Fleet-SmartWitness KP1S is the world's most advanced incident camera with 720p HD video, 3G or WiFi connectivity, live GPS position & driver behavior reports to support post-incident analysis.

Developed to provide evidence of events leading up to and during a road traffic incident, the KP1S provides immediate notifications & photo/video evidence delivered to your desktop in seconds!

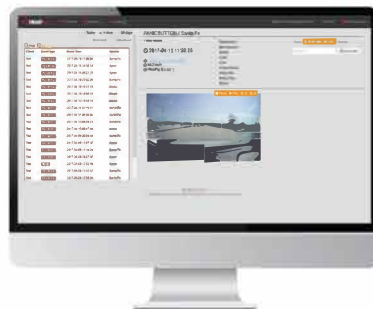

- Real-time HD image of driver's view -170° angle
- Optional 2nd camera for side, rear, driver or cargo view
- Video sent in real-time via email or to your telematics system
- Dual SD cards for longer recording or redundancy
- Instant notification via 3G
- Live impact alerting including: location/speed/event footage
- Tamper-resistant design, key required to access SD card data

### SD Card

KP1S makes constant recordings of video footage and drive data on a loop as the journey continues. This data can be accessed manually at any time by retrieving the KP1S' SD card(s) and inserting into your PC. The included analysis software allows you to view recorded video and drive data evidence of an event. KP1S does not require 3G or WiFi to operate as a stand-alone system.

### SmartMail

SmartMail was developed with the small/medium fleet operator in mind. It delivers driver safety and protection information to you within moments of an incident taking place. Using KP1 with a cellular modem, safety-critical road events will automatically transmit an email notification with the video clip and event information enclosed. An online portal is provided to help manage all vehicle events.

### SmartAPI

CGS Fleet-SmartWitness enables (CGS Telematics Services) to pull video, GPS data, audio, & G-Sensor data directly from KP1S onto our user platform adding GPS tracking software integrated convenience on our system. One invoice, one UI.
