# "A Great Place For The Kids To PLAY! and You To Stay."

## What is there for my kids to do?

Climb, jump, roll, slide, swing, crawl, explore, and play! Our custom built, northern Michigan themed, soft cushioned obstacle structure, active gaming area and Boxblaster Virtual Reality (VR) arena provides plenty of opportunities for fun and gross motor activities for kids aged 1 - 15! No ball pits or bouncy rooms here; our play structure is built for good, old fashioned playing and our games have been specifically selected with active play in mind. We also offer a separate, smaller play structure that is reserved for toddlers under the age of four that provides lots of fun activities that are more age appropriate.

## What do I do while they play?

Play with them if you would like, experience our active games and Virtual Reality arena, or stroll around our walking track – 22 laps is a mile! Our structure and active games are selected and built for kids (and adults) of all ages! If you would rather let the kids play while you kick back and relax, then we have some comfortable seating for you while you watch them play. Our center has free wi-fi, a café with lots of tasty and nutritious options, coffee drinks and smoothies, and large screen TVs for the grown-ups.

## Recycle, Re-use, Reduce!

Teaching our kids to value their environment can be fun! Our Play Center and Café offers several teachable moments...whether it is talking about recyclable products we use (plates, cups, straws, food containers, etc.), the animals in our decor or showing your kids how to use our kid-sized recycling bins, you can help them learn to value the world around us during your visit. Together, our efforts here average over 5 times the amount of recycling than trash!

## Let's move and raise a healthier generation of kids!

Our Play Center will make 'em sweat and kids love all our café food and drink choices! As a parent, you will too! We hope and invite you to compare our offerings with other centers. With childhood obesity still on the rise and nearly one in three children in America either overweight or obese, it's important to give kids plenty of daily opportunities to run around and play as well as have the ability to make healthier, great tasting food choices. Whether you are looking for some family time, or you are just looking for a new challenge for the kids, our play structure, active game area, and VR arena is just the thing to get them moving. We guarantee that your little one will sleep a little better after getting some much needed fun play and exercise at our center. Our café has lots of delicious and healthy options for them to re-fuel; you won't have to worry about trying to talk them out of junk food when they're ready for a snack, because there isn't any here and the kids love what we offer!
