

Turkey Trek

Bike Hike

A group of seven of us started at the Siffleur Falls Trailhead Sunday morning and headed west on a very-well-groomed bike path. The total trip lasted until 1 PM. We made it back in time to meet up with the hikers that decided to take the trail to the falls. In total we biked 30 km; we hit the half way point around 11:30 A.M., and then came back the same route. It was a fabulous trail, certainly a must do next year, either during the regular summer schedule, or at the next Turkey Trek. A few highlights...

...narrow crossing...

...wide open trail...

...moving right
along...

Turkey Trek 2015
over...time to head
home.
