<b>Yellow Onions</b>	31.50	32#

### Know When To Treat For Crabgrass.

Last year was a terrible year for crabgrass, so this year you will want to nip it in the bud – “literally”!

Crabgrass seed can germinate with a soil temperature as low as 55° F; however, it typically germinates between 65° & 75° F.

#### Key Benefits

- Season-long Crabgrass Control
- Broad-spectrum weed/grass control (over 45 grassy and broadleaf weeds)
- Non-staining and low-odor formulation
- Wide Application Window

Test your soil temperature often in the spring. Optimum time to treat your lawn with Award Crabgrass preventer w/ Dimension is when the soil temperature reaches 55°F. and higher, before emergence .

*Award Turf Fertilizer with Dimension has an application window of two to eight weeks longer than any other herbicide on the market by providing both pre and post-emergent crabgrass control.*

*Happy Valentine's Day*

*Karen will have Homemade Treats on February 14th*

## Food Plot 101: Q&A Seminar in March

We have received many inquiries for conducting more seminars. The answer to that question relies on your response. Write down all of your Food Plot questions and send them to Hohl's Farm Supply, Attn: Karen. Questions may be **emailed to: [hohlsom@gmail.com](mailto:hohlsom@gmail.com)** or

**mailed to:** Hohl's Farm Supply  
Attn: Karen  
W11942 Hwy 33  
Portage, WI 53901

We also have a box, in the food plot store, for you to drop your questions off. We will compile all of your questions, consult with our experts at LaCrosse and set up a day or two for a Question and Answer Seminar(s). Based on the responses we receive, we will determine whether or not to hold a Q&A seminar and if so, how many days. Your response is a critical key for the direction we choose. The more questions we receive, the better we are able to conduct the seminars. If we only receive a few questions, we will feature the answers in the next Newsletters. If we receive multiple questions, we will set 1 or 2 dates to address these questions. If you make it possible for us to set the date(s), all attendees will receive a copy of all of the submitted questions with the answers. *Of course, Karen will be supplying her homemade snacks and goodies, if you make it possible for us to hold the seminar(s).*
