Career Coaching Sessions

Some clients choose to meet weekly and I have others who rarely use the sessions. These sessions are for designing your career success strategy, practicing interviewing, reviewing job offers, asking questions regarding the hiring process, using LinkedIn for networking etc. These are by appointment only.

Emergency Laser-Focused Sessions

I am here to help you reach your career goals. I understand that sometimes an emergency arises, and you may need to speak with us. We will do our very best to answer your call. In the event that we cannot answer the phone immediately, we will return your call as soon as we can.

Texting

I encourage clients to send a text if they have a question that can be easily answered via text. You may text me Monday through Thursday between 7am EST and 7pm EST.

I Job Hunt and I Apply for Jobs on Your Behalf

Job hunting is completed a minimum of twice a week by me and my team. Some weeks we will be able to find numerous openings and other weeks we may find nothing. I cannot control job postings. I will never spam your resume to employers. I will apply for job postings you are immensely or highly qualified to fulfill. On average, you can expect to have your civilian resume submitted to one to three jobs per week. Federal resumes require more work; therefore, you can expect to have one to two resumes submitted in a given week. For platinum clients, 90-120 days prior to the end of your military or employment contract we will begin aggressively job searching and applying for jobs.

(1) Update to Resumes

Platinum clients will receive an updated resume quarterly. All clients receive an updated resume after working at a new position for 60-90 days.

(1) Update to LinkedIn Profile

All clients will receive an updated LinkedIn profile when the resume is updated to reflect the new job duties. Platinum clients' profiles will be updated quarterly if needed.
