

Cedar Shade Arbors

This is our most economical structure. Allowing you abundant shade and a place to hang a ceiling fan and mood lighting.

Free standing or attached.

This structure is built of oversized western rough cedar for a solid look and provides decades of worry free shade protection.

8"x8" posts set in concrete footing

4"x12" cedar beams to span posts with 4"x6" rafters and 2"x2" slats to finish on the top.

All cedar is pre stained with ReadySeal stain - shade of choice.
