CAUTION

NEVER APPROACH OR DEPART TO OR FROM THE REAR

Cars   Telephone Poles   Trees   Stump   People   Structures

General Helicopter Safety Rules

+ Wait for a signal from the pilot or crew before approaching the helicopter.
+ Always approach and depart the helicopter from the front, never walk around the tail rotor.

Danger

+ Never rush.
+ If the helicopter is on a sloped surface, approach from the downhill side, never from the uphill side.

Danger
