

Iowa Techniques™

THE UNIQUE PRODUCTS PEOPLE™

Product Catalog

Iowa Techniques is a designer and manufacturer of unique products for the garment care professional in the dry cleaning and laundry industries. Our products are developed from years of experience in the garment cleaning industries, as well as from requests for products improving quality and efficiency by professionals throughout the world. For two generations our commitment has been to consistently offer new and innovative products designed around your needs. Simply put, we manufacture products to make your jobs easier. Should you have a request for a product not featured in our catalog, give us a call. We would be happy to help!

Solid stamped steel yokes

Lifetime of service without down time

Solid stamped steel hangers

Straight Line, Up and Down, V Dip or Double Deck all use the same hangers, increased versatility over other brands

Auto control unit

Adapts to virtually any conveyor. Make change while your customer's clothes are automatically delivered

Garment Storage Conveyors
FAST, RUGGED, DURABLE, QUIET

We strive for complete customer satisfaction. Should you like a reference, we are more than happy to provide a list of customers for you.

You will like the Iowa Techniques' advantage.

Constructed of the highest standards and quality, each Iowa Techniques conveyor is designed, manufactured, assembled, and tested before shipping.

Our CAD (computer aided design) system ensures each conveyor is manufactured to your exact specifications. Our knowledgeable staff is eager to assist you with layout and design. Versatile in design, Iowa Techniques conveyors can easily be converted from a straight line floor model to an up and down conveyor without the need to purchase new hangers. Our stamped steel yokes and hangers work in any and all configurations.

Priced competitively, with shorter lead time and higher quality, the Iowa Techniques conveyor is the choice of garment care professionals around the world.

Soft start intelligent drive system

No more garment swing. Standard on all Iowa Techniques Conveyors

Direct drive gearbox and motor

No belts, no pulleys

The quiet conveyor

Dependable, rugged and fast

Represented by the finest distributor network in the nation.

Call 800+727+1592 for a factory authorized distributor near you.

Instant hot steamy water

Iowa Techniques DynaFluid™ valve is the answer to your hot water needs. Thousands are in use daily. Provides years of trouble free performance and costs less than traditional water heating systems, or heat exchangers. Simply mount the DynaFluid valve on the wall behind your washer, and run steam and water lines to the valve.

When your washer calls for hot water, you will have an instant, unlimited supply.

- Quiet
- Easy to install
- Unlimited capacity 1/2", 3/4", 1" and 1-1/2" sizes
- Hydraulic operation, no thermostats
- Works with uneven steam and water pressure, 10 to 150 psi
- Automatically proportions steam to volume of water being used

Saves space, money and vent problems!

Improved productivity means more PROFIT!

Damp boxes are a must for the professional shirt launderer. They speed production, reduce touch ups and re do's!

Proper height and angle reduces operator fatigue. Damp boxes allow shirts to retain the proper moisture, essential to shirt processing. Available with formed plastic tub and heavy duty locking casters.

Cart your shirts directly from the washer to the press in one step!

Eliminate overloading

Scale carts help eliminate overloading machines and enables tracking of poundage and solvent mileage.

- Heavy steel frame
- Molded plastic garment container
- Convenient chrome handles
- 4" heavy duty swiveling casters
- 100 pound capacity

Stop guessing at your poundage. Weigh each load and you will be accurate.

Versatile Z Racks

All Z racks have heavy duty 4" swiveling casters for easy rolling and maneuverability. Powder coated for durability and attractive finish, we build our racks to last a lifetime. Our space saving "Z" design is made for functionality and nesting when not in use. Save space on your conveyor, use our double tier racks for shirts, and triple tier Z racks for sweaters.

Specifications

	Length	Width	Height
Single Z Rack	63"	24"	66"
Double Z Rack	63"	24"	84"
Triple Z Rack	63"	24"	84"

Single Z Rack

Double Z Rack

Triple Z Rack

Racks nest when not in use

Great for fire and flood restoration

These units are great because they are portable and boast 115 volts of power, more than enough energy to get the tough jobs done. The convenient 24 hour timer makes this unit easy to operate. Thousands of ozone generators are in use each day on the front lines of disaster relief, including floods and fires. These days, even dry cleaners can be heroes! Save your customers' clothes from smoke and water damage smell.

The Activator Series, from Iowa Techniques, eliminates odors naturally by producing controlled amounts of ozone (O₃). Ozone destroys smoke, mold, mildew, food, pet, and paint odors with absolutely no chemicals involved. Ozone is nature's most powerful deodorizer!

Effective area

- Activator 1000 1 MG/hr. 30,000 cubic feet
- Activator 2000 2 MG/hr. 60,000 cubic feet

Specifications

	Length	Width	Height
Activator 1000 ozone generator	12"	9"	7"
Activator 2000 ozone generator	12"	9"	7"

You closed 3 minutes ago. Bad for her, worse for you!

Owning an Iowa Techniques drop box means never having to say, "Sorry, we're closed." If you were your customer, when would you find time to come to your shop? If you don't offer a convenient, 24 hour drop off solution for "after hours" customers, you are driving business to the competition. Get your drop box today!

One of the first purchases I made in my business was the 24 hour drop box from Iowa Techniques. Sixteen years later, that drop box is still working great and has never needed any kind of repair or service.

- Mike Astorino, Fabricare Cleaners

The 24 hour solution to the 10 hour work day

Specifications

	Length	Width	Height
Free Standing drop box	32"	24"	60"
Through wall/window drop box	32"	24"	22"

Free Standing Drop Boxes

Hold your shirts in between steps to maintain your perfect collar

Rugged steel construction. Small foot print saves space. Rotating head with hangers. Sturdy base can be bolted to the floor. Powder coated finish for a lifetime of durability. Shirts will not slip off the unit! Shirt collar holder keeps your shirts ready and neat between pressing steps.

Easy, fast and inexpensive

Tired of the time and expense when having rails installed in your delivery vans? Once received all you need is an electric/cordless drill and about an hour! All rails, screws, end caps, G hooks and roof braces are included in the kit. Specify the size of van: mini, regular, stretch, or Sprinter Vans, Transit Connect, and more. All kits are in stock and include everything you need to install the rails. Stop wasting time and money by having rails custom made and welded for your van. There is a faster and better way.

Convenience on wheels

Need a heavy duty rolling garment rack to load your van, and then slide it into the van for the next stop? Ask for the Van Delivery Rack. Designed for added convenience, this sturdy rack will add a professional touch to your delivery service. Imagine not having clothes draped across your back when you are delivering to a large or corporate account.

Sized to fit in most elevators for corporate delivery.

Specifications

	Width	Depth	Height
Van Delivery Rack	36"	24"	64"

Welded frame.

4" swiveling casters on front, 4" fixed casters on the back.

**Stop horsing around...
You deserve the best! Improve production!**

- Heavy chrome frame
- 4" non marking, full swiveling casters
- Non slip finish strips
- Flat top for added stability
- 38" in width (double sized)
- Powder coated durable finish

Load this rugged cart with cleaned pants from your cleaning machine and wheel directly to your pants topper or legger. Saved Steps = Saved Time = Saved Money!

If you want increased production in your pants department, give your pressers the tools they need!

Specifications

Length	Width	Height
38"	18"	36"

Shirt Scrubbing Tables

The perfectly cleaned collar

There is nothing worse than "ring around the collar." A perfectly pressed shirt does not satisfy your customer if their collar is still dirty. Sure, you can use chemicals in your washer with enough strength to clean the collar, but it is hard on shirts and uses more energy and money.

The Shirt Scrubbing Table has two stainless steel containers. One for spotting agents (ink or blood remover) and the other for your own miracle solution. Scrub the collar and cuffs a few times and let them soak while you prepare the remaining shirts for the load. Place your bucket under the The Shirt Scrubbing Table and let the grooved top drain any excess solution off the table and out of the way.

Sheet Folders

Look Ma' no hands!

Simply bolt this unit to the floor, and in seconds one person can be folding king sized sheets by themselves. Stop using two people to do a job that can be done by one.

We have taken the trouble out of folding sheets!

- Easy to operate
- Great for sheets, blankets and duvets
- Inexpensive to purchase
- Single person operation

Slick Rail Components

Contact Us for More Information

Contact Iowa Techniques for all your slick rail needs. We have the accessories to complete your slick rail systems. We stock a complete line of slick rail components, including slick rail cover. We also build free standing assembly units, round or flat bar!
