

## Bandit Profile

**Name:** Bandit

**Age:** 10 years old

**Gender:** Male

**Spayed/Neutered:** Yes

**Shots:** Up-to-date

**Personality/Traits:** Bandit is a sweet dog who will enjoy laying on the couch next to you. His ears perk up whenever he hears the sound of a squeaky toy and it's time to play. Bandit is housetrained and can use a doggie door. He does not like to be kenneled. Bandit can be dog selective at times so it is recommended that he is the only dog in the home.

**Special notes:** Bandit came to Happy Tails Doxie Rescue in February after his owner passed away and was turned over to a shelter. Bandit has seasonal allergies and received Prednisone in the past to relieve itching. It was discovered that if given a bath every few days with hypoallergenic shampoo, his symptoms improve. Bandit has been waiting a long time for his forever home and will be a loyal companion to anyone who gives him his forever home.
