

The 2021 Mid-Atlantic Utility Conference

The Resilient Utility

TURF VALLEY RESORT, ELLICOTT CITY, MD * November 9, 10 2021

October 2021

Dear Utility Colleague:

We wanted to extend a personal invitation to you and your team of professionals and technicians who dedicate their work to delivering excellent drinking water and effective wastewater treatment for your customers and communities.

We are honored to invite you to the Chesapeake Section of the American Water Works Association (CSAWWA) 2021 Mid-Atlantic Utility Conference on November 9 and 10, 2021. The conference is designed by and for utility personnel and will serve as an excellent opportunity to learn and share with your peers. The theme this year is "The Resilient Utility" for delivery of drinking, storm, and wastewater services no matter what. Speakers from across the region and beyond, from utilities large and small, will present their unique ways of addressing the common challenges we all face.

It is critical that we forge strong relationships together as we confront the challenges of today and tomorrow. As our resources are stretched thin, discovering and implementing proven methods through collaboration, networking and learning will be key to overcoming these challenges.

Our full program is now available on the CSAWWA website. Having so many utility leaders eager to participate and share their experiences, speaks volumes about the need and benefits of collaboration and networking. We've had to delay this several times due to the COVID pandemic, and are extremely anxious to finally host it Live and in-person. Our last event was a resounding success, and we expect this year's program to be even stronger as I believe we are all excited to personally reconnect!

Attendee registration is now open, so make your plans to attend now by going to the following link: <https://www.csawwa.org/utility-conference.html>.

You don't want to miss this conference -- looking forward to seeing you there!

Sincerely,

Chris Phipps, Director
