

2018 Church School Conferences 21st Century Sunday School

In order for Sunday schools to transform into effective models of Christian formation an understanding of the Who, What, When, Where, Why and How of their purpose must be understood in light of the 21st Century. Becoming a transformative Sunday school is difficult when there is not a willingness to recognize the need for change. Change does not mean to 'throw out' the purpose, vision, mission and implementation of the Sunday school. Merely changing the name to something "catchy" does not, in and of itself, cause the Sunday school to grow. However, intentionally refocusing and reimagining responses to several basic questions will help to begin the process of reforming yesterday's Sunday school into a 21st Century Sunday school.

During our time together we will:

1. Discuss the current state of the Sunday school
2. Reimagine new directions for the 21st Century Sunday school
3. Explore strategies and models for the 21st Century Sunday school
