_____ I do not give authorization.

Parent/Guardian Signature: _____

During Summer STEM and Arts 2019, we will be dissecting a frog. The circulatory system of a frog is similar to human anatomy and is a good resource in order to compare and contrast between the frog and human anatomy. For this reason we will offer students the opportunity to witness these similarities first-hand. The lab will be done in small groups with emphasis on respect to the animal being dissected. If you would not like your child to participate in the lab or if your child does not wish to participate in the lab, please check off the appropriate box below.

___ My child has permission to participate in the dissection of a frog.

___ My child does not have permission to participate in the dissection of a frog.

Parent/Guardian Signature: _____

To ensure this is a beneficial and worthwhile experience as well as to maintain the safety of all students attending the Summer STEM and Arts, if a student is found to be engaging in horseplay, being a distraction to others, not following directions, or otherwise endangering themselves or another student their parent or guardian will be immediately notified and the student will be removed from the program.

___ I have read the above statement, understand and agree.

Parent/Guardian Signature: _____

Today's Date: _____
