At CCS Since: 2018

Church Attending: Copper Pointe Church in Albuquerque, NM. Still searching for new church home in Clovis.

Memberships:

- UNM Alumni Association

Philosophy

My philosophy is about the importance of influencing the future generations in math and science. I believe it is important to shed light about the importance of math and science and the importance of learning math and science in a Christian worldview. I believe sciences are the study of God's beautiful creation, and math is the language given from God to interpret the workings of His creation. As educators, we have a direct hand in molding the great minds of our youth. We shape our future leaders in academia and in their spiritual walk with God.

Testimony

I was raised in a Catholic family but was not particularly religious until I reached high school. I attended Clovis Christian schools from 2003 to 2012. At Clovis Christian Schools is where my relationship with God really had a stable foundation. At Clovis Christian, I learned about God, Jesus Christ, and the Holy Spirit. I was part of various leadership groups within the student body such as the Praise and Worship team. I fully accepted Jesus Christ as my Savior and asked the Holy Spirit to enter me and work through me on December 16, 2011. Since then God has led me across the world spreading His Gospel. Now, God has led me back to my alma mater to influence the new youth. I want the students here to experience and feel the Holy Spirit as I did when I attended this school.
