- Excellent instruction abilities and knowledge of material. He presents concepts in an easy way and does a lot to reinforce the learning.
- The text book we had to purchase for the class was really only used by the class a handful of times. I even question why exactly purchasing or event renting this textbook was relevant to the class. The assignments were challenging, and I would like some more explanation as to how exactly we could use all these skills in our professional careers. I hate to be a downer, but so far I highly doubt I'll use most of the material covered in the class.
