general information

The American Society of Civil Engineers (ASCE) Hawai'i Section seeks nominations for the 2019 Hawai'i Outstanding Civil Engineering Achievement (OCEA) Awards, which honors the best and the brightest achievements within the local civil engineering industry. Various awards will be given to those projects that demonstrate innovative and outstanding civil engineering accomplishments by Hawai'i's design and construction professionals.

award categories

Nominated projects and research/studies will be considered for eleven award categories. A select panel of judges will determine the applicable award category for each nomination. Awards may be given in all categories if a sufficient number of worthy nominations are received. Only one project will be selected as the overall winner, and recognized as the 2019 Hawai'i Outstanding Civil Engineering Achievement Award Winner.

eligibility and judging criteria

To be eligible, projects must have been designed or constructed in Hawai'i and completed within the last two years. The judging panel will award projects and research that demonstrate important and outstanding civil engineering accomplishments. Some of the key judging criteria include:

- Resourcefulness in identifying and solving design challenges
- Contributions to the well-being of people and communities
- Pioneering use of materials and construction methods
- Innovative or new application of civil engineering technologies
- Protection of and reducing impacts to natural resources
- Beneficial effects of the project, including aesthetic value

awards banquet

The ASCE Hawai'i Section is pleased to announce that project teams will be honored and awards presented at the ASCE Hawai'i Section OCEA Awards Banquet, which will be held at the:

The Kahala Hotel and Resort
5000 Kahala Avenue
Honolulu, Hawaii 96816

Thursday, September 26th, 2019

Additional duplicate awards for project team members may be ordered from ASCE Hawaii for an additional fee.

Award-winning teams will be asked to deliver a presentation, and although not required for the judging phase of this program, all award-winning teams will be asked to display 36" x 36" poster boards showcasing their project at the awards banquet. Poster boards will be returned to respective teams upon conclusion of the banquet.

More information about the awards banquet and how to register will be available in August.

We look forward to seeing you then!
