

# TETRAD PATTERN

## 'WINDOW OF TIME'

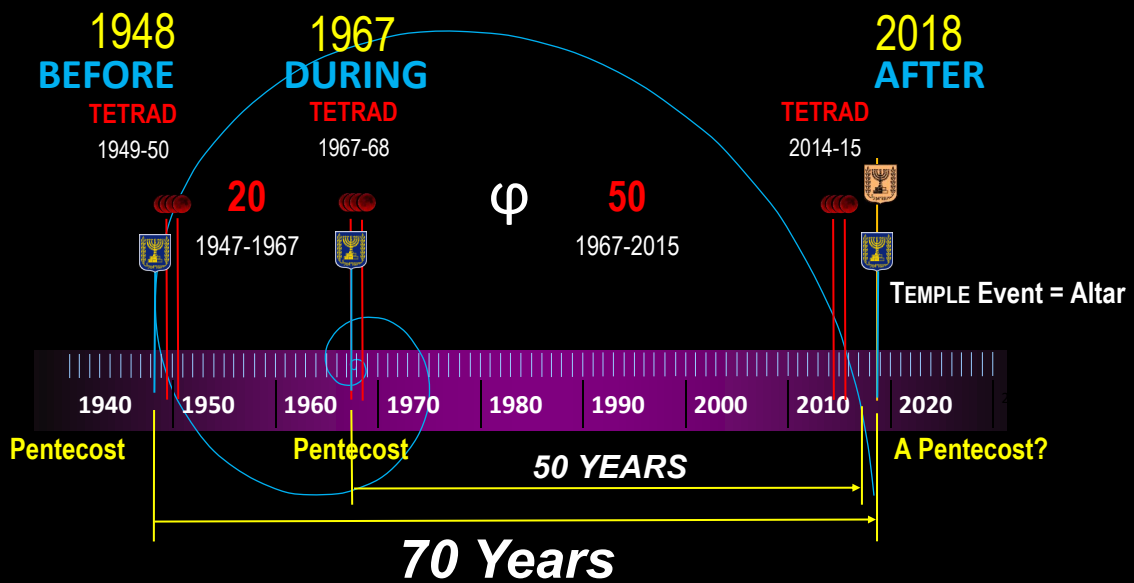

The illustration depicts the 'Segments of Time' from when the 'Event', deemed to be Biblically prophetic concerning Israel's restoration and when the 1st Blood Moon first occurred in the Tetrad series 1949-50, 1967-68, 2014-15. Based on the Before-During-After Tetrad Theory, it would appear that indeed, 2018 marked the 3rd Temple 'Event' as calculated using the Phi Ratio Theory. Thus, based on the approximate Phi Ratio Theory, there is now a possible 3-4 year 'Window of Time' as to when the Daily Sacrifices are to commence perhaps.

between Jewish 'Restoration Event' and the 1st Blood moon of Tetrad series.

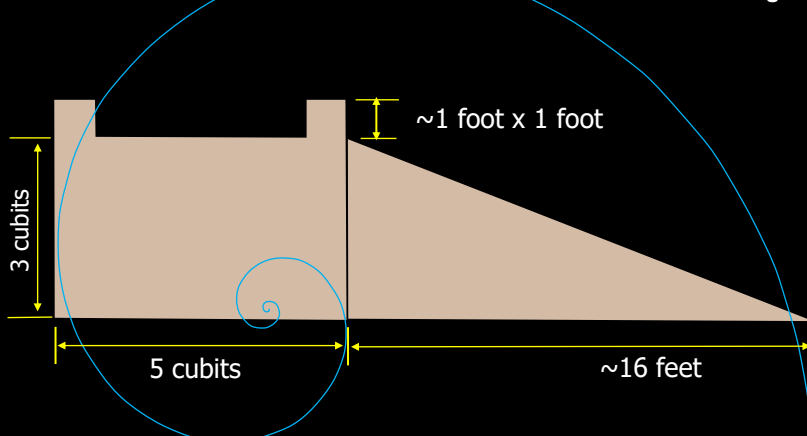

### Modern Israel RESTORATION

### PHI RATIO THEORY

Based on the theory, the Segments of Time appear to also then correlate and confirm that the 3rd 'restoration' was the 'Temple Event' by way of the Altar of Dedication, as 'proxy' to the Temple. From the 2018 Altar dedication to a maximum 4 year 'Segment of Time' would be 2022.

The Altar of Sacrifice rededicated in 2018 was based on the one YHVH gave to Moses.
