

Skittles

WHAT YOU NEED

Skittles or plastic bottles with pictures or photographs stuck to them.

HOW TO PLAY

You can play this game with or without a ball. Some toddlers may not be very accurate with throwing, so start without a ball.

Encourage the child to listen for what is on the skittle that they need to knock down e.g. "Knock down... the one with the duck on it."

Start with one skittle and move onto two or three as the toddler develops their memory for words.

As the sentences get longer, say things like "Listen... the ones with the ball, duck and car." Repeat the instruction if it helps.
