

Eecol Electric Donates \$1,000 to The Health Foundation

Yorkton – Eecol Electric came forward with a donation of \$1,000 toward the new equipment needed for the lab in the Regional Hospital in Yorkton today. “The Health Foundation and the work they do is something that benefits everyone in this area, from our employees and their families to our customers and our friends and neighbors. Supporting healthcare makes sense because it’s supporting our communities to be better places to live and raise a family,” said Darryl Halarewich, Manager of Eecol Electric in Yorkton.

“We are grateful for this donation and the continuing support we receive from Eecol Electric. This donation comes at a great time because we want to finish our fundraising campaign for new lab equipment by the end of the year. We are getting closer and we hope this donation causes others to think about donating as well,” said Ross Fisher, Executive Director of The Health Foundation.
