Sire: RDF Ti Kha Atta Rain F4-2280

Dam: Silver Cheetah Spot F3-2678, 5 Panel N/N

\$600 or \$500 to ICAA Mares

Stunning Black Leopard Foundation Stallion

CTR Super Sonic combines many generations of the most genetically influential breeding stock CT Ranch has owned and produced. Brilliantly marked homozygous black leopard, 15.3 h. Remarkably correct. 100% FPD with ApHC. 3rd place win in FPD Stallions at the 2014 ApHC World Show.

He is consistently putting nice foals on the ground that are highly sought after. Three foals have been exported to Europe. He is sweet, calm, intelligent and loves attention. He follows in the footsteps of his sire and grandsire and is a worthy contribution to the Appaloosa gene pool as a stallion. He boasts some of the great foundation horses in his pedigree including: Solar Flair Eclat, Chubs Powderface, Simcoes Sarcee, Red Eagle, Morgans Leopard, Navajos Candy, Bambi E, Ben Buzz, Tobys I, II, III, & IV, Chief of Fourmile, RDF Ti Kha Atta Rain (F4-2280), My Silver Eagle (F3-2232), Joker B, Chief Malheur, Freels Chico, Sundance 500 Coyotes Apache, Peppers Shamrock, Sun Powder Spirit, Simcoes Sarcee, Kanikus Spots, Cedar Ridge Spot and more. Mare care and collection costs paid by mare owner.

CTR Super Sonic is kind, gentle and quiet. He moves well and learns quickly. Not only gorgeous outwardly, CTR Super Sonic wants to please and in the words of his performance trainer, "is incredibly nice to be around and is a talented athlete."
