

Corrpro Companies, Inc. is looking for a Senior Corrosion Engineer for our projects in Santa Fe Springs & Hayward, CA.

Corrpro, a subsidiary of Aegion Corporation, is North America's largest corrosion engineering, cathodic protection, and corrosion monitoring business for the protection and preservation of infrastructure. Corrpro provides professional corrosion consulting and cathodic protection engineering services to major oil companies, government agencies, municipal water, sewer and gas utilities, universities, and public transportation agencies. Corrpro has complete construction installation services, including crews and equipment to install any type of cathodic protection system for any type of structure. For more details, visit www.corrpro.com.

Responsibilities:

- Plan and perform more complex engineering duties for the department.
 - Review preliminary data, discuss objectives and expectations, and suggest appropriate engineering methods and procedures
 - Prepare engineering designs and reports and direct preparation of field drawings
-
- Assist in cost estimation and detailed proposal development
 - Plan and schedule activities for efficient utilization of resources
 - Coordinate engineering aspects of installation process
 - Supervise and/or perform tests required to determine condition of soil, water, underground or submerged structures
 - Supervise and participate in post installation survey
 - Coordinate interference testing and bonding required with client and affected companies
 - Ensure proper application of methods and procedures, modify as appropriate
 - Perform economic evaluations of alternative methods of cathodic protection and corrosion control

Qualifications:

- Bachelor of Science degree with a concentration in Electrical, Chemical, Materials Engineering or other related field required
- PE preferred
- NACE CP Level III Certification or ability to obtain within 6 months required
- More than 8 years related corrosion experience
- Must have strong project management and problem solving skills
- Must be able to mentor and lead junior team members
- Must be able to handle multiple projects simultaneously
- Must be able to lift 50 lbs., as well as walk/stand for extended periods of time

We offer a competitive salary with career growth opportunities and a full benefits package including medical, dental, and vision Insurance, prescription drug coverage, annual bonus potential, 401k matching, tuition assistance, overtime pay, paid time off, and much more.
