

HOHL'S FARM SUPPLY

W11942 Hwy 33 • Portage, WI 53901

608-356-3195

## HOHL'S STOCK FERTILIZERS

**DAP**- diammonium phosphate (18-46-0) Bulk or Bag

**AMS**- ammonium sulfate Bulk or Bag

**Urea** (46-0-0) Bulk untreated, & Bagged treated

**Potash** (0-0-60) Bulk or Bag

**Sulfur** Bulk or Bag

**Lime Chips** Bulk

**Corn Starter** (9-23-30) Bulk or Bag

**4-10-40** Bulk untreated

**4-10-40** Bagged or Bulk with Sulfur and Boron

**17-17-17** Bulk or Bag

**10-10-10** Bulk or Bag

We also have **Boron** in 50# bags

We also stock Contain and Prevent. Contain is a nitrogen stabilizer with two modes of action to protect from volatilization and also from leaching and denitrification. Prevent is a product added to phosphorus fertilizers to prevent tie up in the soil. It works in the soil and as a byproduct will release more ammonia from the soil, not just coatings like some other products on the market.

43560 sq ft = acre

## LAWN - 4 Step Process

**Step 1.** Apply Dimension crabgrass control, preferred product, lasts up to 120 days, still works up to 3 weeks post emerge. April-June depending on temperatures.

**Step 2.** Apply Weed & Feed w/Trimec or Q3 for creeping weeds when temperature between 68-80. Best control when grass is moist. Avoid mowing. Kills Broadleaf. Water 48 hours after application. May-June & Aug - Sept

**Step 3.** Apply turf food 10-10-10, or 17-17-17 or turf builder. Cut rate if temperature exceeds 85 June-August. Can apply grub control along also.

**Step 4.** Apply winter or fall fertilizer for cool season grasses. Sept-October Turf Food and Turf Builder for greener lawn.

## As well as the field fertilizers we handle products designed for lawn and turf.
