The proceeds

- Proceeds from the event go to refurbishing Outdoor Basketball Courts.
- **To date, six courts have been refurbished in the Hampton Roads area – (pictures are included). The cities of Norfolk, Portsmouth and Virginia Beach have had properties receive these updates.**
- Children need adequate places to exercise. Included in these improvements are new basketball nets, rims, painting of the playing surface and painting backboards to make the area more appealing to kids.

Refurbished outdoor playing facilities to encourage physical activity.

BEFORE

AFTER

Why is this Program needed?

- This event is much more than just playing basketball. At this event, the Hampton Roads community will be educated, motivated and entertained.
- Our young people are facing life-threatening health conditions and a lessened quality of life. If current trends continue, today's kids could be the first generation to live shorter lives than their parents.
- High blood pressure among children is a serious and emerging public health issue and is strongly correlated with being overweight.
- About one in three children and teens in the U.S. is overweight or obese, nearly triple the rate in 1963.
- In Virginia, 61.2% of adults are either overweight or obese.
- Inactive children are likely to become inactive adults.
- Physical Activity helps with...
 - Controlling weight
 - Reducing blood pressure
 - Raising good cholesterol
 - Improved psychological well-being including gaining more self-confidence and higher self-esteem
