

Key Features

- Ultra-quiet and efficient operation
- Advanced electronic control system
- Liquid bottle probe
- Humidity control
- Energy saving mode
- Alarm capabilities
- Flexible installation
- 55F temperature differential

Features

WhisperKOOL has a solution to the most stubborn of small cellar cooling roadblocks. Since space in a small cellar is vital, the all new Platinum Mini-Split offers a compact size paired with powerful efficiency. The unit is equipped with our Platinum Series controller utilizing Advanced System Protection Technology. This features a series of strategically placed monitoring probes, which insure efficient performance and long cooling unit life. The controller is easy to operate and has features such as adjustable humidity control, energy saving modes, quick chill mode and anti-frost function. The Platinum Mini-Split gives anyone the opportunity to have a top-quality wine cellar. This new system cools up to 500 cubic feet with the compressor located in a remote location and the evaporator (cold side) mounted in the cellar.
