AERODYNAMIC MUDFLAPS

BUY NOW

MADE IN CANADA

Aerodynamic Mud Flaps

Professionally engineered with each vertical bar of the Aerodynamic flap molded with a patented, curved, wing-type design that makes contact with the water and channels it to the small dead air space on the back side of the flap which form drops that gravitate to the ground. Reduces splashing, and lets air pass through keeping flaps from flapping around at high speeds.

- Reduce dragging
- Save you MPG's
- Cut down on fuel costs
- High-impact nylon increases durability
- Reduces road spray
- Increases visibility
- Improves safety
