# Business Card Cutters

Shark Finishing Machinery introduces to its Smart line of print finishing equipment the SBCC-24A & SBCC-24T Business Card Cutters. These automatic business card cutters are available in both a table top model and air feed floor model. They come standard with gutter cut producing 24-up business cards from a 12" x 18" sheet. Able to cut coated stock, laminated stock, card stock and other printed material. Equipped with waste bin, easy to use LCD display screen and the ability to control the cutting accuracy with a register mark reader. These high precision machines are built stylish and durable with long life self-sharpening blades with the ability to cut 500 business cards in under 3 minutes. They are simple to operate and require very little maintenance.
