DESCRIPTION: Bear's famed short hunting bow. Great looking and performing bow. Resin impregnated hard rock maple riser. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in good condition. No drilled holes; No chips, dings or cracks. No crazing or stress cracks; A few minor scratches and nicks here and there. Some "speckles" in the white riser overlay—see pics). Decals are in very good shape. Overall, this is a really nice bow in excellent condition for its age. The only real "flaw" with this bow was that there was considerable crazing (light horizontal cracks in the varnish) on the back limbs. I stripped off the varnish (covered over the decal) and refinished the back limbs. You can see the thicker old varnish area around the Bear decal.

Comes with a new string.
