

GREAT PYRAMID PATTERN OF TIME

BASED ON THE SABBATICAL CYCLES OF PROPHETIC TIME

THE 7 CHURCH AGE

Pentecostal Intermission

The Great Pyramid is 481, 482, to 482.7575 feet high by one estimate among many. It is also its radius if placed on a flat plain within a circle. If one multiplies this radius by 2, one obtains the diameter which would be 965.515 feet, if using 482.7575 feet. If one then multiplies this diameter by Pi, using 3.1415, then the circumference would be 3033.1653 feet. Thus, this study strongly suggests that the numerals are actually time markers and, in this case, when 'time' as it is known will cease, in 3033 or in 3022 if one uses 481 feet. Cease in what sense? This is where the connection is made from the theory that the time or Age since the Creation Week wherein Adam and Eve.

Is the possible end of 'time' as it will cease after the 1000-year Millennial Kingdom based on the Great Pyramid? The unknown is when will the Millennial Kingdom begin? This is based on the mathematical model found in the Great Pyramid of Giza. The number or 'date' in question is either 3022 3024, 3030 or 3033.
