

On Nov 9, 2023 the body of LD3 voted to express their lack of confidence in MCRC and demanded the resignation of the following MCRC Executive Board members.

Specifically, MCRC Craig Berland, Shelby Busch, Lawrence Hudson and Members at large Joanie Colson, Brian Ference, Jeff Greenspan, Liz Harris, and Joe Neglia.

Their endless infractions, unethical behavior, chaos, division, and party infighting warrants their resignations.

Their lack of decorum and proper respect to our LD and our PC's have driven good Republican foot soldiers away from the party.

The MCRC devotes all their time censoring, attacking, and destroying the leaders and politicians within the party.

The MCRC was elected to raise money, attract volunteers, create unity, and provide resources to each LD. MCRC's job is to build a larger, stronger party that will be prepared for the 2024 election.

Instead, the MCRC is engaged in childlike, power hungry behavior with name calling, self-destructive Alinsky tactics designed to intimidate, punish, and drive away Republicans.

Here in LD3 we have experienced all these behaviors and their game of By-law manipulations.

MCRC has violated many of their own MCRC By-laws and our LD3 By-laws to take control of our LD. The members of LD3 have produced a 8 Page document of MCRC By-law violations and LD3 By-law violations. [LINK to Document](#)

No one person or group is above the by-laws. Therefore, the body of LD3 demands immediately and without reservation the resignation of Berland, Bush, Hudson, Colson, Ference, Greenspan, Harris and Neglia.

LD3 has elected a leadership team that is willing to create party unity and get Republicans elected.
