

Dubai Light Rail

www.silktreegroup.com

Location: Dubai, United Arab Emirates
Project Value: 1 Billion AED
Services Provided: Landscape Design
Size: 50 Kilometres
Client: Roads Transport Authority, Dubai

Dubai Light Rail is the newest project in Dubai that adds to Dubai's growing list of innovative and unique developments. The RTA of Dubai commissioned our services to develop a series of unique landscape spaces below the overhead viaduct for the entire length of the rail line. This design is based on the interior design of the stations and is driven by the design drivers of earth, fire, water and air
